**1. Principal Activities, Basis of Presentation and Organization**

*Principal Activities*

CBAK Energy Technology, Inc. (“CBAK” or the “Company”) is a corporation formed in the State of Nevada on October 4, 1999 as Medina Copy, Inc. The Company changed its name to Medina Coffee, Inc. on October 6, 1999 and subsequently changed its name to China BAK Battery, Inc. on February 14, 2005. CBAK and its subsidiaries (hereinafter, collectively referred to as the “Company”) are principally engaged in the manufacture, commercialization and distribution of a wide variety of standard and customized lithium ion (known as “Li-ion” or “Li-ion cell”) high power rechargeable batteries. Prior to the disposal of BAK International Limited (“BAK International”) and its subsidiaries (see below), the batteries produced by the Company were for use in cellular telephones, as well as various other portable electronic applications, including high-power handset telephones, laptop computers, power tools, digital cameras, video camcorders, MP3 players, electric bicycles, hybrid/electric vehicles, and general industrial applications. After the disposal of BAK International and its subsidiaries on June 30, 2014, the Company will focus on the manufacture, commercialization and distribution of high power lithium ion rechargeable batteries for use in cordless power tools, light electric vehicles, hybrid electric vehicles, electric cars, electric busses, uninterruptable power supplies and other high power applications.

The shares of the Company traded in the over-the-counter market through the Over-the-Counter Bulletin Board from 2005 until May 31, 2006, when the Company obtained approval to list its common stock on The NASDAQ Global Market, and trading commenced that same date under the symbol “CBAK”.

Effective November 30, 2018, the trading symbol for common stock of the Company, which trades on the Nasdaq Global Market, was changed from CBAK to CBAT.

*Basis of Presentation and Organization*

On November 6, 2004, BAK International, a non-operating holding company that had substantially the same shareholders as Shenzhen BAK Battery Co., Ltd (“Shenzhen BAK”), entered into a share swap transaction with the shareholders of Shenzhen BAK for the purpose of the subsequent reverse acquisition of the Company. The share swap transaction between BAK International and the shareholders of Shenzhen BAK was accounted for as a reverse acquisition of Shenzhen BAK with no adjustment to the historical basis of the assets and liabilities of Shenzhen BAK.

On January 20, 2005, the Company completed a share swap transaction with the shareholders of BAK International. The share swap transaction, also referred to as the “reverse acquisition” of the Company, was consummated under Nevada law pursuant to the terms of a Securities Exchange Agreement entered by and among CBAK, BAK International and the shareholders of BAK International on January 20, 2005. The share swap transaction has been accounted for as a capital-raising transaction of the Company whereby the historical financial statements and operations of Shenzhen BAK are consolidated using historical carrying amounts.

**1. Principal Activities, Basis of Presentation and Organization (continued)**

*Basis of Presentation and Organization (continued)*

Also on January 20, 2005, immediately prior to consummating the share swap transaction, BAK International executed a private placement of its common stock with unrelated investors whereby it issued an aggregate of 1,720,087 shares of common stock for gross proceeds of \$17,000,000. In conjunction with this financing, Mr. Xiangqian Li, the Chairman and Chief Executive Officer of the Company (“Mr. Li”), agreed to place 435,910 shares of the Company’s common stock owned by him into an escrow account pursuant to an Escrow Agreement dated January 20, 2005 (the “Escrow Agreement”). Pursuant to the Escrow Agreement, 50% of the escrowed shares were to be released to the investors in the private placement if audited net income of the Company for the fiscal year ended September 30, 2005 was not at least \$12,000,000, and the remaining 50% was to be released to investors in the private placement if audited net income of the Company for the fiscal year ended September 30, 2006 was not at least \$27,000,000. If the audited net income of the Company for the fiscal years ended September 30, 2005 and 2006 reached the above-mentioned targets, the 435,910 shares would be released to Mr. Li in the amount of 50% upon reaching the 2005 target and the remaining 50% upon reaching the 2006 target.

Under accounting principles generally accepted in the United States of America (“US GAAP”), escrow agreements such as the one established by Mr. Li generally constitute compensation if, following attainment of a performance threshold, shares are returned to a company officer. The Company determined that without consideration of the compensation charge, the performance thresholds for the year ended September 30, 2005 would be achieved. However, after consideration of a related compensation charge, the Company determined that such thresholds would not have been achieved. The Company also determined that, even without consideration of a compensation charge, the performance thresholds for the year ended September 30, 2006 would not be achieved.

While the 217,955 escrow shares relating to the 2005 performance threshold were previously released to Mr. Li, Mr. Li executed a further undertaking on August 21, 2006 to return those shares to the escrow agent for the distribution to the relevant investors. However, such shares were not returned to the escrow agent, but, pursuant to a Delivery of Make Good Shares, Settlement and Release Agreement between the Company, BAK International and Mr. Li entered into on October 22, 2007 (the “Li Settlement Agreement”), such shares were ultimately delivered to the Company as described below. Because the Company failed to satisfy the performance threshold for the fiscal year ended September 30, 2006, the remaining 217,955 escrow shares relating to the fiscal year 2006 performance threshold were released to the relevant investors. As Mr. Li has not retained any of the shares placed into escrow, and as the investors party to the Escrow Agreement are only shareholders of the Company and do not have and are not expected to have any other relationship to the Company, the Company has not recorded a compensation charge for the years ended September 30, 2005 and 2006.

At the time the escrow shares relating to the 2006 performance threshold were transferred to the investors in fiscal year 2007, the Company should have recognized a credit to donated shares and a debit to additional paid-in capital, both of which are elements of shareholders’ equity. This entry is not material because total ordinary shares issued and outstanding, total shareholders’ equity and total assets do not change; nor is there any impact on income or earnings per share. Therefore, previously filed consolidated financial statements for the fiscal year ended September 30, 2007 will not be restated. This share transfer has been reflected in these financial statements by reclassifying the balances of certain items as of October 1, 2007. The balances of donated shares and additional paid-in capital as of October 1, 2007 were credited and debited by \$7,955,358 respectively, as set out in the consolidated statements of changes in shareholders’ equity.

In November 2007, Mr. Li delivered the 217,955 shares related to the 2005 performance threshold to BAK International pursuant to the Li Settlement Agreement; BAK International in turn delivered the shares to the Company. Such shares (other than those issued to investors pursuant to the 2008 Settlement Agreements, as described below) are now held by the Company. Upon receipt of these shares, the Company and BAK International released all claims and causes of action against Mr. Li regarding the shares, and Mr. Li released all claims and causes of action against the Company and BAK International regarding the shares. Under the terms of the Li Settlement Agreement, the Company commenced negotiations with the investors who participated in the Company’s January 2005 private placement in order to achieve a complete settlement of BAK International’s obligations (and the Company’s obligations to the extent it has any) under the applicable agreements with such investors.

Beginning on March 13, 2008, the Company entered into settlement agreements (the “2008 Settlement Agreements”) with certain investors in the January 2005 private placement. Since the other investors have never submitted any claims regarding this matter, the Company did not reach any settlement with them.

*Basis of Presentation and Organization (continued)*

Pursuant to the 2008 Settlement Agreements, the Company and the settling investors have agreed, without any admission of liability, to a settlement and mutual release from all claims relating to the January 2005 private placement, including all claims relating to the escrow shares related to the 2005 performance threshold that had been placed into escrow by Mr. Li, as well as all claims, including claims for liquidated damages relating to registration rights granted in connection with the January 2005 private placement. Under the 2008 Settlement Agreement, the Company has made settlement payments to each of the settling investors of the number of shares of the Company's common stock equivalent to 50% of the number of the escrow shares related to the 2005 performance threshold these investors had claimed; aggregate settlement payments as of June 30, 2015 amounted to 73,749 shares. Share payments to date have been made in reliance upon the exemptions from registration provided by Section 4(2) and/or other applicable provisions of the Securities Act of 1933, as amended. In accordance with the 2008 Settlement Agreements, the Company filed a registration statement covering the resale of such shares which was declared effective by the SEC on June 26, 2008.

Pursuant to the Li Settlement Agreement, the 2008 Settlement Agreements and upon the release of the 217,955 escrow shares relating to the fiscal year 2006 performance threshold to the relevant investors, neither Mr. Li or the Company have any obligations to the investors who participated in the Company's January 2005 private placement relating to the escrow shares. As of June 30, 2018, the Company had not received any claim from the other investors who have not been covered by the "2008 Settlement Agreements" in the January 2005 private placement.

As the Company has transferred the 217,955 shares related to the 2006 performance threshold to the relevant investors in fiscal year 2007 and the Company also have transferred 73,749 shares relating to the 2005 performance threshold to the investors who had entered the "2008 Settlement Agreements" with us in fiscal year 2008, pursuant to "Li Settlement Agreement" and "2008 Settlement Agreements", neither Mr. Li nor the Company had any remaining obligations to those related investors who participated in the Company's January 2005 private placement relating to the escrow shares.

On August 14, 2013, Dalian BAK Trading Co., Ltd was established as a wholly owned subsidiary of China BAK Asia Holding Limited ("BAK Asia") with a registered capital of \$500,000 (Note 19(i)). Pursuant to CBAK Trading's articles of association and relevant PRC regulations, BAK Asia was required to contribute the capital to CBAK Trading on or before August 14, 2015. On March 7, 2017, the name of Dalian BAK Trading Co., Ltd was changed to Dalian CBAK Trading Co., Ltd ("CBAK Trading"). On August 5, 2019, CBAK Trading's registered capital was increased to \$5,000,000. Up to the date of this report, the Company has contributed \$1,100,000 to CBAK Trading in cash.

On December 27, 2013, Dalian BAK Power Battery Co., Ltd was established as a wholly owned subsidiary of BAK Asia with a registered capital of \$30,000,000. Pursuant to CBAK Power's articles of association and relevant PRC regulations, BAK Asia was required to contribute the capital to CBAK Power on or before December 27, 2015. On March 7, 2017, the name of Dalian BAK Power Battery Co., Ltd was changed to Dalian CBAK Power Battery Co., Ltd ("CBAK Power"). On July 10, 2018, CBAK Power's registered capital was increased to \$50,000,000. Up to the date of this report, the Company has contributed \$29,999,978 to CBAK Power through injection of a series of patents and cash.

On May 4, 2018, CBAK New Energy (Suzhou) Co., Ltd ("CBAK Suzhou") was established as a 90% owned subsidiary of CBAK Power with a registered capital of RMB10,000,000 (approximately \$1.5 million). The remaining 10% equity interest was held by certain employees of CBAK Suzhou. Pursuant to CBAK Suzhou's articles of association, each shareholder is entitled to the right of the profit distribution or responsible for the loss according to its proportion to the capital contribution. Pursuant to CBAK Suzhou's articles of association and relevant PRC regulations, CBAK Power was required to contribute the capital to CBAK Suzhou on or before December 31, 2019. Up to the date of this report, the Company has contributed RMB9.0 million (approximately \$1.3 million), and the other shareholders have contributed RMB784,000 (\$115,414) to CBAK Suzhou through injection of a series of cash. CBAK Suzhou is intended to be engaged in development and manufacture of new energy high power battery packs.

The Company's condensed consolidated financial statements have been prepared under US GAAP.

These condensed consolidated financial statements are unaudited. In the opinion of management, all adjustments and disclosures necessary for a fair presentation of these condensed consolidated financial statements, which are of a normal and recurring nature, have been included. The results reported in the condensed consolidated financial statements for any interim periods are not necessarily indicative of the results that may be reported for the entire year. The following (a) condensed consolidated balance sheet as of December 31, 2018, which was derived from the Company's audited financial statements, and (b) the unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to those rules and regulations, though the Company believes that the disclosures made are adequate to make the information not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying footnotes of the Company for the year ended December 31, 2018.

*Basis of Presentation and Organization (continued)*

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. This basis of accounting differs in certain material respects from that used for the preparation of the books of account of the Company's principal subsidiaries, which are prepared in accordance with the accounting principles and the relevant financial regulations applicable to enterprises with limited liability established in the PRC or Hong Kong. The accompanying consolidated financial statements reflect necessary adjustments not recorded in the books of account of the Company's subsidiaries to present them in conformity with US GAAP.

After the disposal of BAK International Limited and its subsidiaries, namely Shenzhen BAK, Shenzhen BAK Power Battery Co., Ltd (formerly BAK Battery (Shenzhen) Co., Ltd.) ("BAK Battery"), BAK International (Tianjin) Ltd. ("BAK Tianjin"), Tianjin Chenhao Technological Development Limited (a subsidiary of BAK Tianjin established on May 8, 2014, "Tianjin Chenhao"), BAK Battery Canada Ltd. ("BAK Canada"), BAK Europe GmbH ("BAK Europe") and BAK Telecom India Private Limited ("BAK India"), effective on June 30, 2014, and as of December 31, 2018 and June 30, 2019, the Company's subsidiaries consisted of: i) China BAK Asia Holdings Limited ("BAK Asia"), a wholly owned limited liability company incorporated in Hong Kong on July 9, 2013; ii) Dalian CBAK Trading Co., Ltd. ("CBAK Trading"), a wholly owned limited liability company established on August 14, 2013 in the PRC; iii) Dalian CBAK Power Battery Co., Ltd. ("CBAK Power"), a wholly owned limited liability company established on December 27, 2013 in the PRC; and iv) CBAK New Energy (Suzhou) Co., Ltd. ("CBAK Suzhou"), a 90% owned limited liability company established on May 4, 2018 in the PRC.

The Company continued its business and continued to generate revenues from sale of batteries via subcontracting the production to BAK Tianjin and BAK Shenzhen, former subsidiaries before the completion of construction and operation of its facility in Dalian. BAK Tianjin and BAK Shenzhen are now suppliers of the Company, and the Company does not have any significant benefits or liability from the operating results of BAK Tianjin and BAK Shenzhen except the normal risk with any major supplier.

As of the date of this report, Mr. Xiangqian Li is no longer a director of BAK International and BAK Tianjin. He remained as a director of Shenzhen BAK and BAK Shenzhen.

On and effective March 1, 2016, Mr. Xiangqian Li resigned as Chairman, director, Chief Executive Officer, President and Secretary of the Company. On the same date, the Board of Directors of the Company appointed Mr. Yunfei Li as Chairman, Chief Executive Officer, President and Secretary of the Company. On March 4, 2016, Mr. Xiangqian Li transferred 3,000,000 shares to Mr. Yunfei Li for a price of \$2.4 per share. After the share transfer, Mr. Yunfei Li held 3,000,000 shares or 17.3% and Mr. Xiangqian Li held 760,557 shares at 4.4% of the Company's outstanding stock, respectively. As of June 30, 2019, Mr. Yunfei Li held 5,535,185 shares or 14.98% of the Company's outstanding stock, and Mr. Xiangqian Li held none of the Company's outstanding stock.

The Company had a working capital deficiency, accumulated deficit from recurring net losses and short-term debt obligations as of December 31, 2018 and June 30, 2019. These factors raise substantial doubts about the Company's ability to continue as a going concern.

In June and July 2015, the Company received advances of approximately \$9.8 million from potential investors. On September 29, 2015, the Company entered into a Debt Conversion Agreement with these investors. Pursuant to the terms of the Debt Conversion Agreement, each of the creditors agreed to convert existing loan principal of \$9,847,644 into an aggregate 4,376,731 shares of common stock of the Company ("the Shares") at a conversion price of \$2.25 per share. Upon receipt of the Shares on October 16, 2015, the creditors released the Company from all claims, demands and other obligations relating to the Debts. As such, no interest was recognized by the Company on the advances from investors pursuant to the supplemental agreements with investors and the Debt Conversion Agreement.

*Basis of Presentation and Organization (continued)*

In June 2016, the Company received further advances in the aggregate of \$2.9 million from Mr. Jiping Zhou and Mr. Dawei Li. These advances were unsecured, non-interest bearing and repayable on demand. On July 8, 2018, the Company received further advances of \$2.6 million from Mr. Jiping Zhou. On July 28, 2016, the Company entered into securities purchase agreements with Mr. Jiping Zhou and Mr. Dawei Li to issue and sell an aggregate of 2,206,640 shares of common stock of the Company, at \$2.5 per share, for an aggregate consideration of approximately \$5.52 million. On August 17, 2016, the Company issued these shares to these two investors.

On February 17, 2017, the Company signed investment agreements with eight investors (including Mr. Yunfei Li, the Company's CEO, and seven of the Company's existing shareholders) whereby the investors agreed to subscribe new shares of the Company totaling \$10 million. Pursuant to the investment agreements, in January 2017, eight investors paid the Company a total of \$2.06 million as earnest money which need to be returned to the investors after the investment amount was delivered. Mr. Yunfei Li agrees to subscribe new shares of the Company totaled \$1,120,000 and paid the earnest money of \$225,784 in January 2017. On April 1, April 21, April 26 and May 10, 2017, the Company received \$1,999,910, \$3,499,888, \$1,119,982 and \$2,985,497 from these investors, respectively. On May 31, 2017, the Company entered into a securities purchase agreement with these investors, pursuant to which the Company agreed to issue an aggregate of 6,403,518 shares of common stock to these investors, at a purchase price of \$1.50 per share, for an aggregate price of \$9.6 million, among which 746,018 shares issued to Mr. Yunfei Li. On June 22, 2017, the Company issued the shares to the investors.

From January to March 2019, according to the investment agreements and agreed by the investors, the Company returned partial earnest money of \$769,298 (approximately RMB5.2 million) to these investors.

As of June 30, 2019, the Company had aggregate interest-bearing bank loans of approximately \$20.8 million, due in 2019 to 2021, in addition to approximately \$77.7 million of other current liabilities.

As of June 30, 2019, the Company had unutilized committed banking facilities of \$19.3 million.

On January 7, 2019, each of Mr. Dawei Li and Mr. Yunfei Li entered into an agreement with CBAK Power and Tianjin New Energy whereby Tianjin New Energy assigned its rights to loans to CBAK Power of approximately \$3.5 million (RMB23,980,950) and \$1.7 million (RMB11,647,890) (totaled \$5.2 million, the "First Debt") to Mr. Dawei Li and Mr. Yunfei Li, respectively.

On January 7, 2019, the Company entered into a cancellation agreement with Mr. Dawei Li and Mr. Yunfei Li. Pursuant to the terms of the cancellation agreement, Mr. Dawei Li and Mr. Yunfei Li agreed to cancel the First Debt in exchange for 3,431,373 and 1,666,667 shares of common stock of the Company, respectively, at an exchange price of \$1.02 per share. Upon receipt of the shares, the creditors released the Company from any claims, demands and other obligations relating to the First Debt.

On April 26, 2019, each of Mr. Jun Lang, Ms. Jing Shi and Asia EVK Energy Auto Limited ("Asia EVK") entered into an agreement with CBAK Power and Tianjin New Energy whereby Tianjin New Energy assigned its rights to loans to CBAK Power of approximately \$0.3 million (RMB2,225,082), \$0.1 million (RMB 912,204) and \$5.3 million (RMB35,406,036) (collectively \$5.7 million, the "Second Debt") to Mr. Jun Lang, Ms. Jing Shi and Asia EVK, respectively.

On April 26, 2019, the Company entered into a cancellation agreement with Mr. Jun Lang, Ms. Jing Shi and Asia EVK (the creditors). Pursuant to the terms of the Cancellation Agreement, the creditors agreed to cancel the Second Debt in exchange for 300,534, 123,208 and 4,782,163 shares of common stock of the Company, respectively, at an exchange price of \$1.1 per share. Upon receipt of the shares, the creditors will release the Company from any claims, demands and other obligations relating to the Second Debt.

*Basis of Presentation and Organization (continued)*

On June 28, 2019, each of Mr. Dawei Li and Mr. Yunfei Li entered into an agreement with CBAK Power to loans approximately \$1.5 million (RMB10,000,000) and \$2.6 million (RMB18,000,000) respectively to CBAK Power for a terms of six months (collectively \$4.1 million, the “Third Debt”). The loan was unsecured, non-interest bearing and repayable on demand.

On July 16, 2019, each of Asia EVK and Mr. Yunfei Li entered into an agreement with CBAK Power and Dalian Zhenghong Architectural Decoration and Installation Engineering Co. Ltd. (the Company’s construction contractor) whereby Dalian Zhenghong Architectural Decoration and Installation Engineering Co. Ltd. assigned its rights to the unpaid construction fees owed by CBAK Power of approximately \$2.9 million (RMB20,000,000) and \$0.4 million (RMB2,813,810) (collectively \$3.3 million, the “Fourth Debt”) to Asia EVK and Mr. Yunfei Li, respectively.

On July 26, 2019, the Company entered into a cancellation agreement with Mr. Dawei Li, Mr. Yunfei Li and Asia EVK (the creditors). Pursuant to the terms of the cancellation agreement, Mr. Dawei Li, Mr. Yunfei Li and Asia EVK agreed to cancel the Third Debt and Fourth Debt in exchange for 1,384,717, 2,938,067 and 2,769,435 shares of common stock of the Company, respectively, at an exchange price of \$1.05 per share. Upon receipt of the shares, the creditors will release the Company from any claims, demands and other obligations relating to the Third Debt and Fourth Debt. The cancellation agreement contains customary representations and warranties of the creditors. The creditors do not have registration rights with respect to the shares.

On July 24, 2019, the Company entered into a securities purchase agreement (the “Purchase Agreement”) with Atlas Sciences, LLC (the “Lender”), pursuant to which we issued a promissory note (the “Note”) to the Lender. The Note has an original principal amount of \$1,395,000, bears interest at a rate of 10% per annum and will mature 12 months after the issuance, unless earlier paid or redeemed in accordance with its terms. The Company received proceeds of \$1,250,000 after an original issue discount of \$125,000 and payment of Lender’s expenses of \$20,000.

The Company is currently expanding its product lines and manufacturing capacity in its Dalian plant, which requires more funding to finance the expansion. The Company plans to raise additional funds through banks borrowings and equity financing in the future to meet its daily cash demands, if required.

However, there can be no assurance that the Company will be successful in obtaining further financing. The Company expects that it will be able to secure more potential orders from the new energy market, especially from the electric car market. The Company believes that with the booming future market demand in high power lithium ion products, it can continue as a going concern and return to profitability.

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue to operate as a going concern, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty related to the Company’s ability to continue as a going concern.

*Revenue Recognition*

The Company recognizes revenues when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods. The Company recognizes revenues following the five step model prescribed under ASU No. 2014-09: (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenues when (or as) we satisfy the performance obligation.

*Revenue Recognition (continued)*

Revenues from product sales are recognized when the customer obtains control of the Company's product, which occurs at a point in time, typically upon delivery to the customer. The Company expenses incremental costs of obtaining a contract as and when incurred if the expected amortization period of the asset that it would have recognized is one year or less or the amount is immaterial.

Revenues from product sales are recorded net of reserves established for applicable discounts and allowances that are offered within contracts with the Company's customers.

Product revenue reserves, which are classified as a reduction in product revenues, are generally characterized in the categories: discounts and returns. These reserves are based on estimates of the amounts earned or to be claimed on the related sales and are classified as reductions of accounts receivable as the amount is payable to the Company's customer.

*Recently Issued Accounting Standards*

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments-Credit Losses (Topic 326), which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early application will be permitted for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company is currently evaluating the impact that the standard will have on its consolidated financial statements and related disclosures.

In January 2017, the FASB issued ASU No. 2017-04, Simplifying the Test for Goodwill Impairment. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The guidance should be adopted on a prospective basis for the annual or any interim goodwill impairment tests beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company currently intends to adopt this guidance for the fiscal year beginning January 1, 2020, and does not anticipate that the adoption of this guidance will have a material impact on its financial statements or disclosures because the Company does not currently have any recorded goodwill.

In June 2018, the FASB issued ASU 2018-07, "Compensation — Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting," which expands the scope of ASC 718 to include share-based payment transactions for acquiring goods and services from non-employees. An entity should apply the requirements of ASC 718 to non-employee awards except for specific guidance on inputs to an option pricing model and the attribution of cost. The amendments specify that ASC 718 applies to all share-based payment transactions in which a grantor acquires goods or services to be used or consumed in a grantor's own operations by issuing share-based payment awards. The new guidance is effective for SEC filers for fiscal years, and interim reporting periods within those fiscal years, beginning after December 15, 2019 (i.e., January 1, 2020, for calendar year entities). Early adoption is permitted. The Company is evaluating the effects of the adoption of this guidance and currently believes that it will impact the accounting of the share-based awards granted to non-employees.

\* On July 7, 2016, Shenzhen Huijie Purification System Engineering Co., Ltd (“Shenzhen Huijie”), one of the Company’s contractors, filed a lawsuit against CBAK Power in the Peoples’ Court of Zhuanghe City, Dalian for the failure to pay pursuant to the terms of the contract and entrusted part of the project of the contract to a third party without their prior consent. The plaintiff sought a total amount of \$1,227,964 (RMB 8,430,792), including construction costs of \$0.9 million (RMB6.1 million), interest of \$30,934 (RMB0.2 million) and compensation of \$0.3 million (RMB1.9 million), which we already accrued for as of September 30, 2016. On September 7, 2016, upon the request of Shenzhen Huijie, the Court froze CBAK Power’s bank deposits totaling \$1,227,964 (RMB 8,430,792) for a period of one year. Further on September 1, 2017, upon the request of Shenzhen Huijie, the Court froze the bank deposits for another one year until August 31, 2018. The Court froze the bank deposits for another one year until August 27, 2019 upon the request of Shenzhen Huijie on August 27, 2018.

- (a) On August 15, 2006, the SEC declared effective a post-effective amendment that the Company had filed on August 4, 2006, terminating the effectiveness of a resale registration statement on Form SB-2 that had been filed pursuant to a registration rights agreement with certain shareholders to register the resale of shares held by those shareholders. The Company subsequently filed Form S-1 for these shareholders. On December 8, 2006, the Company filed its Annual Report on Form 10-K for the year ended September 30, 2006 (the "2006 Form 10-K"). After the filing of the 2006 Form 10-K, the Company's previously filed registration statement on Form S-1 was no longer available for resale by the selling shareholders whose shares were included in such Form S-1. Under the registration rights agreement, those selling shareholders became eligible for liquidated damages from the Company relating to the above two events totaling approximately \$1,051,000. As of December 31, 2017 and June 30, 2018, no liquidated damages relating to both events have been paid.

On November 9, 2007, the Company completed a private placement for the gross proceeds to the Company of \$13,650,000 by selling 3,500,000 shares of common stock at the price of \$3.90 per share. Roth Capital Partners, LLC acted as the Company's exclusive financial advisor and placement agent in connection with the private placement and received a cash fee of \$819,000. The Company may have become liable for liquidated damages to certain shareholders whose shares were included in a resale registration statement on Form S-3 that the Company filed pursuant to a registration rights agreement that the Company entered into with such shareholders in November 2007. Under the registration rights agreement, among other things, if a registration statement filed pursuant thereto was not declared effective by the SEC by the 100th calendar day after the closing of the Company's private placement on November 9, 2007, or the "Effectiveness Deadline", then the Company would be liable to pay partial liquidated damages to each such investor of (a) 1.5% of the aggregate purchase price paid by such investor for the shares it purchased on the one month anniversary of the Effectiveness Deadline; (b) an additional 1.5% of the aggregate purchase price paid by such investor every thirtieth day thereafter (pro rated for periods totaling less than thirty days) until the earliest of the effectiveness of the registration statement, the ten-month anniversary of the Effectiveness Deadline and the time that the Company is no longer required to keep such resale registration statement effective because either such shareholders have sold all of their shares or such shareholders may sell their shares pursuant to Rule 144 without volume limitations; and (c) 0.5% of the aggregate purchase price paid by such investor for the shares it purchased in the Company's November 2007 private placement on each of the following dates: the ten-month anniversary of the Effectiveness Deadline and every thirtieth day thereafter (prorated for periods totaling less than thirty days), until the earlier of the effectiveness of the registration statement and the time that the Company no longer is required to keep such resale registration statement effective because either such shareholders have sold all of their shares or such shareholders may sell their shares pursuant to Rule 144 without volume limitations. Such liquidated damages would bear interest at the rate of 1% per month (prorated for partial months) until paid in full.

On December 21, 2007, pursuant to the registration rights agreement, the Company filed a registration statement on Form S-3, which was declared effective by the SEC on May 7, 2008. As a result, the Company estimated liquidated damages amounting to \$561,174 for the November 2007 registration rights agreement. As of December 31, 2017 and June 30, 2018, the Company had settled the liquidated damages with all the investors and the remaining provision of approximately \$159,000 was included in other payables and accruals.

In September 2013, the Management Committee of Dalian Economic Zone Management Committee (the “Management Committee”) provided a subsidy of RMB150 million to finance the costs incurred in moving our facilities to Dalian, including the loss of sales while the new facilities were being constructed. For the year ended September 30, 2015, the Company recognized \$23,103,427 as income after offset of the related removal expenditures of \$1,004,027. No such income or offset was recognized in the three and six months ended June 30, 2018 and 2019.

On October 17, 2014, the Company received a subsidy of RMB46,150,000 pursuant to an agreement with the Management Committee dated July 2, 2013 for costs of land use rights and to be used to construct the new manufacturing site in Dalian. Part of the facilities had been completed and was operated in July 2015 and the Company has initiated amortization on a straight-line basis over the estimated useful lives of the depreciable facilities constructed thereon.

The Company offset government grants of \$38,787 and \$36,247 for the three months ended June 30, 2018 and 2019 and \$77,667 and \$72,875 for the six months ended June 30, 2018 and 2019, respectively, against depreciation expenses of the Dalian facilities.

**15. Product Warranty Provision**

The Company maintains a policy of providing after sales support for certain of its new EV and LEV battery products introduced since October 1, 2015 by way of a warranty program. The limited cover covers a period of six to twelve months for battery cells, a period of twelve to twenty seven months for battery modules for light electric vehicles (LEV) such as electric bicycles, and a period of three years to eight years (or 120,000 or 200,000 km if reached sooner) for battery modules for electric vehicles (EV). The Company accrues an estimate of its exposure to warranty claims based on both current and historical product sales data and warranty costs incurred. The Company assesses the adequacy of its recorded warranty liability at least annually and adjusts the amounts as necessary.

**16. Income Taxes, Deferred Tax Assets and Deferred Tax Liabilities**

**United States Tax**

CBK is a Nevada corporation that is subject to U.S. corporate income tax on its taxable income at a rate of up to 21% for taxable years beginning after December 31, 2017 and U.S. corporate income tax on its taxable income of up to 35% for prior tax years. The U.S. Tax Reform signed into law on December 22, 2017 significantly modified the U.S. Internal Revenue Code by, among other things, reducing the statutory U.S. federal corporate income tax rate from 35% to 21% for taxable years beginning after December 31, 2017; limiting and/or eliminating many business deductions; migrating the U.S. to a territorial tax system with a one-time transition tax on a mandatory deemed repatriation of previously deferred foreign earnings of certain foreign subsidiaries; subject to certain limitations, generally eliminating U.S. corporate income tax on dividends from foreign subsidiaries; and providing for new taxes on certain foreign earnings. Taxpayers may elect to pay the one-time transition tax over eight years, or in a single lump sum.

**16. Income Taxes, Deferred Tax Assets and Deferred Tax Liabilities (continued)**

The U.S. Tax Reform also includes provisions for a new tax on GILTI effective for tax years of foreign corporations beginning after December 31, 2017. The GILTI provisions impose a tax on foreign income in excess of a deemed return on tangible assets of controlled foreign corporations (“CFCs”), subject to the possible use of foreign tax credits and a deduction equal to 50 percent to offset the income tax liability, subject to some limitations.

The Company’s management is still evaluating the effect of the U.S. Tax Reform on CBAK. Management may update its judgment of that effect based on its continuing evaluation and on future regulations or guidance issued by the U.S. Department of the Treasury, and specific actions the Company may take in the future.

To the extent that portions of CBAK’s U.S. taxable income, such as Subpart F income or GILTI, are determined to be from sources outside of the U.S., subject to certain limitations, Sohu.com Inc. may be able to claim foreign tax credits to offset its U.S. income tax liabilities. If dividends that CBAK receives from its subsidiaries are determined to be from sources outside of the U.S., subject to certain limitations, CBAK will generally not be required to pay U.S. corporate income tax on those dividends. Any liabilities for U.S. corporate income tax will be accrued in the Company’s consolidated statements of comprehensive income and estimated tax payments will be made when required by U.S. law.

No provision for income taxes in the United States or elsewhere has been made as CBAK had no taxable income for the three and six months ended June 30, 2018 and 2019.

**Hong Kong Tax**

BAK Asia is subject to Hong Kong profits tax rate of 16.5% and did not have any assessable profits arising in or derived from Hong Kong for the three and six months ended June 30, 2018 and 2019 and accordingly no provision for Hong Kong profits tax was made in these periods.

**PRC Tax**

The Company’s subsidiaries in China are subject to enterprise income tax at 25% for the three and six months ended June 30, 2018 and 2019.

A reconciliation of the provision for income taxes determined at the statutory income tax rate to the Company’s income taxes is as follows:

As of December 31, 2018 and June 30, 2019, the Company's U.S. entity had net operating loss carry forwards of \$103,580,741, of which \$102,293 available to reduce future taxable income which will expire in various years through 2035 and \$103,478,448 available to offset capital gains recognized in the succeeding 5 tax years and the Company's PRC subsidiaries had net operating loss carry forwards of \$19,374,795 and \$24,416,804, respectively, which will expire in various years through 2022. Management believes it is more likely than not that the Company will not realize these potential tax benefits as these operations will not generate any operating profits in the foreseeable future. As a result, a valuation allowance was provided against the full amount of the potential tax benefits.

According to the PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of taxes is due to computational errors made by the taxpayer or its withholding agent. The statute of limitations extends to five years under special circumstances, which are not clearly defined. In the case of a related party transaction, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion.

The impact of an uncertain income tax positions on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

The significant uncertain tax position arose from the subsidies granted by the local government for the Company's PRC subsidiary, which may be modified or challenged by the central government or the tax authority. A reconciliation of January 1, 2019 through June 30, 2019 amount of unrecognized tax benefits excluding interest and penalties ("Gross UTB") is as follows:

|   | <i>Gross UTB</i>    | <i>Surcharge</i> | <i>Net UTB</i>      |
|---|---------------------|------------------|---------------------|
| Balance as of January 1, 2019                                 | \$ 7,129,285        | \$ -             | \$ 7,129,285        |

**17. Share-based Compensation**

*Restricted Shares*

Restricted shares granted on June 30, 2015

On June 12, 2015, the Board of Director approved the CBAK Energy Technology, Inc. 2015 Equity Incentive Plan (the “2015 Plan”) for Employees, Directors and Consultants of the Company and its Affiliates. The maximum aggregate number of Shares that may be issued under the Plan is ten million (10,000,000) Shares.

On June 30, 2015, pursuant to the 2015 Plan, the Compensation Committee of the Company’s Board of Directors granted an aggregate of 690,000 restricted shares of the Company’s common stock, par value \$0.001, to certain employees, officers and directors of the Company with a fair value of \$3.24 per share on June 30, 2015. In accordance with the vesting schedule of the grant, the restricted shares will vest in twelve equal quarterly installments on the last day of each fiscal quarter beginning on June 30, 2015 (i.e. last vesting period: quarter ended March 31, 2018). The Company recognizes the share-based compensation expenses on a graded-vesting method.

The Company recorded non-cash share-based compensation expense of \$nil and \$17,160 for three and six months ended June, 2018, in respect of the restricted shares granted on June 30, 2015, respectively.

The Company recorded non-cash share-based compensation expense of \$nil for three and six months ended June, 2019, in respect of the restricted shares granted on June 30, 2015, respectively.

As of June 30, 2019, non-vested restricted shares granted on June 30, 2015 are as follows:

As of June 30, 2019, there was no unrecognized stock-based compensation associated with the above restricted shares. As of June 30, 2019, 1,667 vested shares were to be issued.

**17. Share-based Compensation (continued)**

Restricted shares granted on April 19, 2016

On April 19, 2016, pursuant to the Company's 2015 Equity Incentive Plan, the Compensation Committee of the Board of Directors of the Company (the "Compensation Committee") granted an aggregate of 500,000 restricted shares of the Company's common stock, par value \$0.001 (the "Restricted Shares"), to certain employees, officers and directors of the Company, of which 220,000 restricted shares were granted to the Company's executive officers and directors. There are three types of vesting schedules. First, if the number of restricted shares granted is below 3,000, the shares will vest annually in 2 equal installments over a two year period with the first vesting on June 30, 2017. Second, if the number of restricted shares granted is larger than or equal to 3,000 and is below 10,000, the shares will vest annually in 3 equal installments over a three year period with the first vesting on June 30, 2017. Third, if the number of restricted shares granted is above or equal to 10,000, the shares will vest semi-annually in 6 equal installments over a three year period with the first vesting on December 31, 2016. The fair value of these restricted shares was \$2.68 per share on April 19, 2016. The Company recognizes the share-based compensation expenses over the vesting period (or the requisite service period) on a graded-vesting method.

The Company recorded non-cash share-based compensation expense of \$71,281 and \$137,694 for the three and six months ended June 30, 2018, in respect of the restricted shares granted on April 19, 2016, respectively.

The Company recorded non-cash share-based compensation expense of \$18,422 and \$36,641 for the three and six months ended June 30, 2019, in respect of the restricted shares granted on April 19, 2016, respectively.

As of June 30, 2019, non-vested restricted shares granted on April 19, 2016 are as follows:

|   |          |
|---|----------|
| Non-vested shares as of January 1, 2019 | 84,830   |
| Granted                                 | -        |
| Vested                                  | (84,830) |
| Forfeited                               | -        |
| Non-vested shares as of June 30, 2019   | -        |

As of June 30, 2019, there was no unrecognized stock-based compensation associated with the above restricted shares. As of June 30, 2019, 140,995 vested shares were to be issued.

As the Company itself is an investment holding company which is not expected to generate operating profits to realize the tax benefits arising from its net operating loss carried forward, no income tax benefits were recognized for such stock-based compensation cost under the stock option plan for the three and six months ended June 30, 2018 and 2019.

**19. Fair Value of Financial Instruments**

ASC Topic 820, *Fair Value Measurement and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy, which requires classification based on observable and unobservable inputs when measuring fair value. Certain current assets and current liabilities are financial instruments. Management believes their carrying amounts are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and, if applicable, their current interest rates are equivalent to interest rates currently available. The three levels of valuation hierarchy are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full term of the financial instruments.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The carrying amounts of financial assets and liabilities, such as cash and cash equivalents, pledged deposits, trade accounts and bills receivable and payable, other receivables, balances with former subsidiaries, other short-term loans, short-term and long-term bank loans and other payables approximate their fair values because of the short maturity of these instruments or the rate of interest of these instruments approximate the market rate of interest.

*(ii) Litigation*

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise, in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these, or other matters, may arise from time to time that may harm our business. Other than the legal proceeding set forth below, the Company is currently not aware of any such legal proceedings or claims that the Company believe will have an adverse effect on our business, financial condition or operating results.

On July 7, 2016, Shenzhen Huijie Purification System Engineering Co., Ltd (“Shenzhen Huijie”), one of the Company’s contractors, filed a lawsuit against CBAK Power in the Peoples’ Court of Zhuanghe City, Dalian, for the failure to pay pursuant to the terms of the contract and entrusted part of the project of the contract to a third party without their prior consent. The plaintiff sought a total amount of \$1,227,964 (RMB 8,430,792), including construction costs of \$0.9 million (RMB6.1 million, which the Company already accrued for at June 30, 2016), interest of \$30,934 (RMB0.2 million) and compensation of \$0.3 million (RMB1.9 million). On September 7, 2016, upon the request of Shenzhen Huijie for property preservation, the Court of Zhuanghe froze CBAK Power’s bank deposits totaling \$1,227,964 (RMB 8,430,792) for a period of one year. Further on September 1, 2017, upon the request of Shenzhen Huijie, the Court of Zhuanghe froze the bank deposits for another one year until August 31, 2018. On June 30, 2017, according to the trial of first instance, the Court of Zhuanghe ruled that CBAK Power should pay the remaining contract amount of RMB6,135,860 (approximately \$0.9 million) claimed by Shenzhen Huijie as well as other expenses incurred including deferred interest, discounted charge on bills payable, litigation fee and property preservation fee totaled \$0.1 million, the Company has accrued for these amounts as of June 30, 2019. On July 24, 2017, CBAK Power filed an appellate petition to the Intermediate Peoples’ Court of Dalian (“Court of Dalian”) challenging the lower court’s judgement rendered on June 30, 2017. On November 17, 2017, the Court of Dalian rescind the original judgement and remand the case to the Court of Zhuanghe for retrial. The Court of Zhuanghe did a retrial and requested an appraisal to be performed by a third-party appraisal institution on the construction cost incurred and completed by Shenzhen Huijie on the subject project. On November 8, 2018, the Company received from the Court of Zhuanghe the construction-cost-appraisal report which determined that the construction cost incurred and completed by Shenzhen Huijie for the subject project to be \$1,329,780 (RMB9,129,868). On May 20, 2019, the Court of Zhuanghe made a judgment that Shenzhen Huijie should pay back to CBAK Power \$258,435 (RMB 1,774,337) (the amount CBAK Power paid in excess of the construction cost appraised by the appraisal institution) and the interest incurred since April 2, 2019. Shenzhen Huijie filed an appellate petition to the Court of Dalian. As of June 30, 2019, the Company has already paid RMB 10,962,140 (approximately \$1,593,728) and accrued \$0.9 million (RMB 6.1 million) for the construction cost incurred and completed by Shenzhen Huijie.

In late February 2018, CBAK Power received a notice from Court of Zhuanghe that Shenzhen Huijie filed another lawsuit against CBAK Power for the failure to perform pursuant to the terms of a fire-control contract. The plaintiff sought a total amount of RMB244,942 (\$35,676), including construction costs of RMB238,735 (\$34,772) and interest of RMB6,207 (\$904), the Company has accrued for these amounts as of June 30, 2019. On October 16, 2018, the Court of Zhuanghe determined that CBAK Power should pay RMB 77,042 (\$11,221) to Shenzhen Huijie after deducting the uncompleted cost, as well as other expenses incurred including deferred interest and litigation fee. On January 29, 2019, the Court of Dalian dismissed the appeal by Shenzhen Huijie and affirmed the original judgement.

In May 2017, CBAK Power filed a lawsuit in the Court of Zhuanghe against Pingxiang Anyuan Tourism Bus Manufacturing Co., Ltd., (“Anyuan Bus”) one of CBAK Power’s customers, for failure to pay pursuant to the terms of the sales contract. CBAK Power sought a total amount of RMB18,279,858, including goods amount of RMB17,428,000 (\$2,538,416) and interest of RMB851,858 (\$124,074). On December 19, 2017, the Court of Zhuanghe determined that Anyuan Bus should pay the goods amount of RMB17,428,000 (\$2,538,416) and the interest until the goods amount was paid off, and a litigation fee of RMB131,480 (\$19,150). Anyuan Bus did not appeal and as a result, the judgment is currently in the enforcement phase. On June 29, 2018, the Company filed a petition with the Court of Zhuanghe for enforcement of the judgement against all of Anyuan Bus’ shareholders, including Jiangxi Zhixin Automobile Co., Ltd, Anyuan Bus Manufacturing Co., Ltd, Anyuan Coal Group Co., Ltd, Qian Ronghua, Qian Bo and Li Junfu. On October 22, 2018, the Court of Zhuanghe issued a judgment supporting the Company’s petition that all of Anyuan Bus’ shareholders should be liable to pay the Company the debt as confirmed by the judgment. On November 9, 2018, all of shareholders appealed against the judgment after receiving the notice from the court. On March 29, 2019, the Company received judgment from the Court of Zhuanghe that all these six shareholders cannot be added as judgment debtors. On April 11, 2019, the Company has filed an appellate petition to Court of Dalian challenging the judgment from the Court of Zhuanghe.

**21. Concentrations and Credit Risk (continued)**

*(b) Credit Risk*

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and cash equivalents and pledged deposits. As of December 31, 2018 and June 30, 2019, substantially all of the Company's cash and cash equivalents were held by major financial institutions located in the PRC, which management believes are of high credit quality.

For the credit risk related to trade accounts receivable, the Company performs ongoing credit evaluations of its customers and, if necessary, maintains reserves for potential credit losses. Historically, such losses have been within management's expectations.

**22. Segment Information**

The Company used to engage in one business segment, the manufacture, commercialization and distribution of a wide variety of standard and customized lithium ion rechargeable batteries for use in a wide array of applications. The Company manufactured five types of Li-ion rechargeable batteries: aluminum-case cell, battery pack, cylindrical cell, lithium polymer cell and high-power lithium battery cell. The Company's products are sold to packing plants operated by third parties primarily for use in mobile phones and other electronic devices.

After the disposal of BAK International and its subsidiaries (see Note 1), the Company focused on producing high-power lithium battery cells. Net revenues for the three and six months ended June 30, 2018 and 2019 were as follows:

*Net revenues by product:*

### **Overview**

Our Dalian manufacturing facilities began its partial commercial operations in July 2015. We are now engaged in the business of developing, manufacturing and selling new energy high power lithium batteries, which are mainly used in the following applications:

- Electric vehicles (“EV”), such as electric cars, electric buses, hybrid electric cars and buses;
- Light electric vehicles (“LEV”), such as electric bicycles, electric motors, sight-seeing cars; and
- Electric tools, energy storage, uninterruptible power supply, and other high power applications.

We have received most of the operating assets, including customers, employees, patents and technologies of our former subsidiary, BAK International (Tianjin) Ltd. (“BAK Tianjin”). Such assets were acquired in exchange for a reduction in receivables from our former subsidiaries that were disposed in June 2014. For now, we have equipped with complete production equipment which can fulfill most of our customers’ needs. We have outsourced and will continue to outsource special production which we do not produce to other manufacturers until our Dalian manufacturing facility can fulfill our customers’ needs, if necessary.

We generated revenues of \$6.1 million and \$4.3 million for the three months ended June 30, 2018 and 2019, respectively. We had a net loss of \$3.4 million and \$2.3 million in the three months ended June 30, 2018 and 2019, respectively. As of June 30, 2019, we had an accumulated deficit of \$170.5 million and net assets of \$6.1 million. We had a working capital deficiency and accumulated deficit from recurring net losses and short-term debt obligations maturing in less than one year as of June 30, 2019.

On June 14, 2016, we renewed our banking facilities from Bank of Dandong for loans with a maximum amount of RMB130 million (approximately \$18.9 million), including three-year long-term loans and three-year revolving bank acceptance and letters of credit bills for the period from June 13, 2016 to June 12, 2019. The banking facilities were guaranteed by Mr. Yunfei Li (“Mr. Li”), our CEO, and Ms. Qinghui Yuan, Mr. Li’s wife, Mr. Xianqian Li, our former CEO, Ms. Xiaoqiu Yu, the wife of our former CEO, Shenzhen BAK Battery Co., Ltd., our former subsidiary (“Shenzhen BAK”). Under the banking facilities, we borrowed various three-year term bank loans that totaled RMB126.8 million (approximately \$18.5 million), bearing fixed interest at 7.2% per annum. The Company also borrowed various bank acceptance of RMB3.2 million (approximately \$0.5 million) under the facilities. The Company repaid the loan and bank acceptance bills on June 12, 2018.

In the second quarter of 2018, we obtained another banking facilities from Bank of Dandong with bank acceptance bills of RMB5.0 million (approximately \$0.7 million) for a term until October 17, 2018. We repaid the bank acceptance bills on October 17, 2018.

On August 2, 2017, we obtained one-year term facilities from China Merchants Bank with a maximum amount of RMB100 million (approximately \$14.6 million) including revolving loans, trade finance, notes discount, and acceptance of commercial bills etc. Any amount drawn under the facilities requires security in the form of cash or banking acceptance bills receivable of at least the same amount. Under the facilities, we borrowed a series of bank acceptance bills from China Merchants Bank totaled RMB21.3 million (approximately \$3.1 million) for a term until October 25, 2018. The facilities expired on August 1, 2018 and we repaid the bills on October 25, 2018.

On November 9, 2017, we obtained banking facilities from China Everbright Bank Dalian Branch with a maximum amount of RMB100 million (approximately \$14.6 million) with the term expiring on November 7, 2018. The banking facilities were secured by the 100% equity in CBAK Power held by BAK Asia. Under the facilities, bank deposits of approximately 50% were required to secure against this letter of credit. We borrowed a net letter of credit of RMB96.1 million (approximately \$14.0 million) to November 7, 2018. We repaid the letter of credit on November 7, 2018.

On June 4, 2018, we obtained banking facilities from China Everbright Bank Dalian Branch with a maximum amount of RMB200 million (approximately \$29.1 million) with the term from June 12, 2018 to June 10, 2021, bearing interest at 130% of benchmark rate of the People’s Bank of China (“PBOC”) for three-year long-term loans, which is currently 6.175% per annum. The loans are repayable in six installments of RMB0.8 million (\$0.12 million) on December 10, 2018, RMB24.3 million (\$3.54 million) on June 10, 2019, RMB0.8 million (\$0.12 million) on December 10, 2019, RMB74.7 million (\$10.88 million) on June 10, 2020, RMB0.8 million (\$0.12 million) on December 10, 2020 and RMB66.3 million (\$9.66 million) on June 10, 2021. We repaid the bank loan of RMB0.8 million (\$0.12 million) in December 2018 and RMB24.3 million (\$3.5 million) in June 2019. Under the facilities, the Company borrowed RMB142.6 million (approximately \$20.8 million) as of June 30, 2019. The facilities were secured by the Company’s land use rights, buildings, machinery and equipment.

Dalian Branch totaled RMB1.5 million (approximately \$0.2 million) for various terms through May 21, 2019, which was secured by bills receivable of RMB1.5 million (approximately \$0.2 million). We repaid the bank acceptance bills on May 21, 2019.

As of June 30, 2019, we had unutilized committed banking facilities of \$19.3 million. We plan to renew these loans upon maturity, and intend to raise additional funds through bank borrowings and equity financing in the future to meet our daily cash demands, if required.

In June 2016, we received advances in the aggregate of \$2.9 million from Mr. Jiping Zhou and Mr. Dawei Li. These advances were unsecured, non-interest bearing and repayable on demand. On July 8, 2016, we received further advances of \$2.6 million from Mr. Jiping Zhou. On July 28, 2016, to convert these advances into equity interests in our Company, we entered into securities purchase agreements with Mr. Jiping Zhou and Mr. Dawei Li to issue and sell an aggregate of 2,206,640 shares of our common stock, at \$2.5 per share, for an aggregate consideration of approximately \$5.52 million. On August 17, 2016, we issued these shares to these two investors.

On February 17, 2017, we signed investment agreements with eight investors (including Mr. Yunfei Li, the Company's CEO, and seven of the Company's existing shareholders) whereby the investors agreed to subscribe new shares of the Company totaling \$10 million. Pursuant to the investment agreements, in January 2017, eight investors paid the Company a total of \$2.06 million as earnest money which need be returned to the investors after the investment amount was delivered. Mr. Yunfei Li agreed to subscribe new shares of the Company totaled \$1.12 million and paid the earnings money of \$225,784 in January 2017. On April 1, April 21, April 26 and May 10, 2017, we received investment of \$1,999,910, \$3,499,888, \$1,119,982 and \$2,985,497 from these investors, respectively. On May 31, 2017, we entered into a securities purchase agreement with these investors, pursuant to which we agreed to issue an aggregate of 6,403,518 shares of common stock to these investors, at a purchase price of \$1.50 per share, for an aggregate price of \$9.6 million, among which 746,018 shares to be issued to Mr. Yunfei Li. On June 22, 2017, the Company issued the shares to the investors.

From January to March 2019, according to the investment agreements and agreed by the investors, we returned partial earnest money of \$773,310 (approximately RMB5.2 million) to these investors.

On January 7, 2019, each of Mr. Dawei Li and Mr. Yunfei Li entered into an agreement with CBAK Power and Tianjin New Energy whereby Tianjin New Energy assigned its rights to loans to CBAK Power of approximately \$3.5 million (RMB23,980,950) and \$1.7 million (RMB11,647,890) (totaled \$5.2 million, the "First Debt") to Mr. Dawei Li and Mr. Yunfei Li, respectively.

On January 7, 2019, we entered into a cancellation agreement with Mr. Dawei Li and Mr. Yunfei Li. Pursuant to the terms of the cancellation agreement, Mr. Dawei Li and Mr. Yunfei Li agreed to cancel the First Debt in exchange for 3,431,373 and 1,666,667 shares of common stock of the Company, respectively, at an exchange price of \$1.02 per share. Upon receipt of the shares, the creditors released the Company from any claims, demands and other obligations relating to the First Debt.

On April 26, 2019, each of Mr. Jun Lang, Ms. Jing Shi and Asia EVK Energy Auto Limited ("Asia EVK") entered into an agreement with CBAK Power and Tianjin New Energy whereby Tianjin New Energy assigned its rights to loans to CBAK Power of approximately \$0.3 million (RMB2,225,082), \$0.1 million (RMB 912,204) and \$5.3 million (RMB35,406,036) (collectively \$5.7 million, the "Second Debt") to Mr. Jun Lang, Ms. Jing Shi and Asia EVK, respectively.

On April 26, 2019, we entered into a cancellation agreement with Mr. Jun Lang, Ms. Jing Shi and Asia EVK (the creditors). Pursuant to the terms of the Cancellation Agreement, the creditors agreed to cancel the Second Debt in exchange for 300,534, 123,208 and 4,782,163 shares of common stock of the Company, respectively, at an exchange price of \$1.1 per share. Upon receipt of the shares, the creditors will release the Company from any claims, demands and other obligations relating to the Second Debt.

On June 28, 2019, each of Mr. Dawei Li and Mr. Yunfei Li entered into an agreement with CBAK Power to loans approximately \$1.5 million (RMB10,000,000) and \$2.6 million (RMB18,000,000) respectively to CBAK Power for a terms of six months (collectively \$4.1 million, the “Third Debt”). The loan was unsecured, non-interest bearing and repayable on demand.

On July 16, 2019, each of Asia EVK and Mr. Yunfei Li entered into an agreement with CBAK Power and Dalian Zhenghong Architectural Decoration and Installation Engineering Co. Ltd. (the Company’s construction contractor) whereby Dalian Zhenghong Architectural Decoration and Installation Engineering Co. Ltd. assigned its rights to the unpaid construction fees owed by CBAK Power of approximately \$2.9 million (RMB20,000,000) and \$0.4 million (RMB2,813,810) (collectively \$3.3 million, the “Fourth Debt”) to Asia EVK and Mr. Yunfei Li, respectively.

On July 26, 2019, we entered into a cancellation agreement with Mr. Dawei Li, Mr. Yunfei Li and Asia EVK (the creditors). Pursuant to the terms of the cancellation agreement, Mr. Dawei Li, Mr. Yunfei Li and Asia EVK agreed to cancel the Third Debt and Fourth Debt in exchange for 1,384,717, 2,938,067 and 2,769,435 shares of common stock of the Company, respectively, at an exchange price of \$1.05 per share. Upon receipt of the shares, the creditors will release the Company from any claims, demands and other obligations relating to the Third Debt and Forth Debt. The cancellation agreement contains customary representations and warranties of the creditors. The creditors do not have registration rights with respect to the shares.

On July 24, 2019, we entered into a securities purchase agreement (the “Purchase Agreement”) with Atlas Sciences, LLC (the “Lender”), pursuant to which we issued a promissory note (the “Note”) to the Lender. The Note has an original principal amount of \$1,395,000, bears interest at a rate of 10% per annum and will mature 12 months after the issuance, unless earlier paid or redeemed in accordance with its terms. We received proceeds of \$1,250,000 after an original issue discount of \$125,000 and payment of Lender’s expenses of \$20,000.

In the meanwhile, due to the growing environmental pollution problem, the Chinese government has been providing vigorous support to the development of new energy facilities and vehicles for several years. It is expected that we will be able to secure more potential orders from the new energy market, especially from the electric car market. We believe that with the booming market demand for high power lithium ion products, we can continue as a going concern and return to profitability.

In 2015, to promote the development of electric vehicles industry, the Chinese central government issued a subsidy policy named Notice of 2016-2020 New Energy Vehicles Promotion with Financial Support, which regulated central and local government subsidies to consumers who purchase electric vehicles. The policy regulates a certain subsidy standard for various types of electric vehicles in connection with the endurance mileage, battery pack energy density, energy consumption level, which means new energy vehicles providing long driving range and high technical performance will get higher subsidies. For the purposes of establishing a long-term mechanism for the administration of energy conservation and new energy vehicles, and promoting the sound development of the automobile industry, Chinese government reduced the subsidy standard for electric vehicles once a year while made several other policies to stimulate the increase of new energy vehicles. On December 26, 2017, the Chinese central government issued a policy for exemption of purchase tax for electric vehicles for another three years until 2020.

On September 28, 2017, Chinese Ministry of Industry and Information Technology issued a new policy named Measures for Parallel Administration of the Average Fuel Consumption and New Energy Vehicle Credits of Passenger Vehicle Enterprises (“Measures for Parallel Administration”). According to the Measures for Parallel Administration, Chinese government will calculate and examine the Average Fuel Consumption Credits and New Energy Vehicle Credits of passenger vehicle enterprises. If the enterprises get negative credits on the declaration day, the production of high-fuel consumption vehicles will be suspended. The positive credits of average fuel consumption of passenger vehicle enterprises may be carried forward or transferred among affiliated enterprises. A passenger vehicle enterprise’s negative credits of new energy vehicles shall be subject to compensation and zeroing through purchasing positive credits of new energy vehicles. Accordingly, the automobile industry should produce more new energy vehicles or pay money to other enterprises to get positive credits if their credits are negative. The Measures for Parallel Administration became effective on April 1, 2018.

#### **Financial Performance Highlights for the Quarter Ended June 30, 2019**

The following are some financial highlights for the quarter ended June 30, 2019:

- **Net revenues:** Net revenues decreased by \$1.8 million, or 29%, to \$4.3 million for the three months ended June 30, 2019, from \$6.1 million for the same period in 2018.
- **Gross loss:** Gross loss was \$0.2 million, representing a decrease of \$0.8 million, for the three months ended June 30, 2019, from gross loss of \$1.0 million for the same period in 2018.
- **Operating loss:** Operating loss was \$2.1 million for the three months ended June 30, 2019, reflecting a decrease of \$1.2 million from an operating loss of \$3.3 million for the same period in 2018.
- **Net loss:** Net loss was \$2.3 million for the three months ended June 30, 2019, representing a decrease of \$1.1 million from net loss of \$3.4 million for the same period in 2018.
- **Fully diluted loss per share:** Fully diluted loss per share was \$0.07 for the three months ended June 30, 2019, as compared to fully diluted loss per share of \$0.13 for the same period in 2018.

## Financial Statement Presentation

**Net revenues.** The Company recognizes revenues when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods. The Company recognizes revenues following the five step model prescribed under ASU No. 2014-09: (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenues when (or as) we satisfy the performance obligation.

Revenues from product sales are recognized when the customer obtains control of our product, which occurs at a point in time, typically upon delivery to the customer. We expenses incremental costs of obtaining a contract as and when incurred if the expected amortization period of the asset that it would have recognized is one year or less or the amount is immaterial.

Revenues from product sales are recorded net of reserves established for applicable discounts and allowances that are offered within contracts with our customers.

Product revenue reserves, which are classified as a reduction in product revenues, are generally characterized in the categories: discounts and returns. These reserves are based on estimates of the amounts earned or to be claimed on the related sales and are classified as reductions of accounts receivable as the amount is payable to the Company's customer.

**Cost of revenues.** Cost of revenues consists primarily of material costs, employee remuneration for staff engaged in production activity, share-based compensation, depreciation and related expenses that are directly attributable to the production of products. Cost of revenues also includes write-downs of inventory to lower of cost and net realizable value.

**Research and development expenses.** Research and development expenses primarily consist of remuneration for R&D staff, share-based compensation, depreciation and maintenance expenses relating to R&D equipment, and R&D material costs.

**Sales and marketing expenses.** Sales and marketing expenses consist primarily of remuneration for staff involved in selling and marketing efforts, including staff engaged in the packaging of goods for shipment, advertising cost, depreciation, share-based compensation, travel and entertainment expenses and product warranty expense. We do not pay slotting fees to retail companies for displaying our products, engage in cooperative advertising programs, participate in buy-down programs or similar arrangements.

**General and administrative expenses.** General and administrative expenses consist primarily of employee remuneration, share-based compensation, professional fees, insurance, benefits, general office expenses, depreciation, liquidated damage charges and bad debt expenses.

**Finance costs, net.** Finance costs consist primarily of interest income and interest on bank loans, net of capitalized interest.

**Income tax expenses.** Our subsidiaries in PRC are subject to income tax at a rate of 25%. Our Hong Kong subsidiary BAK Asia is subject to a profits tax at a rate of 16.5%. However, because we did not have any assessable income derived from or arising in PRC and Hong Kong, the entity had not paid any such tax.

## Results of Operations

Net revenues from sales of batteries for electric vehicles were \$0.3 million for the three months ended June 30, 2019 as compared to \$1.8 million in the same period of 2018, representing a decrease of \$1.4 million, or 81%. Our revenues have been adversely impacted by the reduction of government subsidy for new energy vehicles. Pursuant to the “Notice on Further Completing the Policy of Financial Subsidy for the Promotion and Application of New Energy Vehicles” (Notice 2019), jointly released by the Ministry of Finance, the Ministry of Industry and Information Technology, the Ministry of Science and Technology and the National Development and Reform Commission of the PRC on March 26, 2019, new subsidy standards have been implemented for new energy vehicles sold in China after June 25, 2019. As a result, new energy vehicles will receive different subsidies based on their driving range and technical performance. New energy vehicles providing long driving range and high technical performance will get higher subsidies. We believe the above policies will in the long term encourage the production of new energy vehicles, optimize the structure of the new energy vehicles industry, enhance technical standards of the industry and strengthen its core competitiveness, and ultimately foster strategic development of the new energy vehicles. However, in the short term many electric vehicle manufacturers are inevitably adversely impacted by the decreasing subsidy, and the price of EV batteries in Chinese market decreased sharply as a result. Given the adverse market environment, we focused our resources on the existing cylindrical batteries for UPS market and temporarily reduced the investment on R&D of new products for electric vehicle market and cut down the EV batteries selling before the market stabilizes.

Net revenues from sales of batteries for light electric vehicles were nil for the three months ended June 30, 2019, compared to approximately \$19,000 in the same period of 2018, representing a decrease of approximately \$19,000, or 100%. Our net revenues from light electric vehicles decreased year by year since 2017, as we focus on selling batteries for EV market and UPS market.

Net revenues from sales of batteries for uninterruptable power supplies were \$3.9 million for the three months ended June 30, 2019, as compared with \$4.3 million in the same period in 2018, representing a slight decrease of \$0.3 million, or 8%. We focused more on this market since 2018, sale of batteries for uninterruptable power supplies remains stable.

**Cost of revenues.** Cost of revenues decreased to \$4.5 million for the three months ended June 30, 2019, as compared to \$7.1 million for the same period in 2018, a decrease of \$2.6 million, or 37%. Included in cost of revenues were write down of obsolete inventories of \$0.5 million for three months ended June 30, 2019, while it was \$nil for the same period in 2018. We write down inventory value whenever there is an indication that it is impaired. However, further write-down may be necessary if market conditions continue to deteriorate.

**Gross loss.** Gross loss for the three months ended June 30, 2019 was \$0.2 million, or 5.1% of net revenues, as compared to gross loss of \$1.0 million, or 17.3% of net revenues for the same period in 2018. Our new Dalian facilities commenced manufacturing activities in July 2015. Inefficiency was inevitably caused by the operation of the newly installed machinery and newly hired production staff. In particular, we need to maintain a high level of skilled production staff, in anticipation of the increased demand for our products following the release of the government subsidy policy of new energy vehicles in 2019. In the second quarter of 2019, the qualified rate of our product has improved due to cost control and enhancement works on production line. As a result, our gross loss ratio improved for the three months ended June 30, 2019.

**Research and development expenses.** Research and development expenses remain stable at \$0.5 million for the three months ended June 30, 2019 and 2018.

**Sales and marketing expenses.** Sales and marketing expenses decreased to \$0.3 million for the three months ended June 30, 2019, as compared to approximately \$0.4 million for the same period in 2018, a decrease of approximately \$146,535, or 36%. As a percentage of revenues, sales and marketing expenses were 6% and 7% for the three months ended June 30, 2019 and 2018, respectively. For the quarter ended June 30, 2019, we have implemented a new control policy over the sales and marketing expenses. Therefore travel and transportation expenses decreased, which accordingly reduced the sales and marketing expenses.

**General and administrative expenses.** General and administrative expenses decreased to \$1.1 million for the three months ended June 30, 2019, as compared to approximately \$1.3 million for the same period in 2018. The decreased of general and administrative expenses was mainly due to the decrease of salaries and social insurance. We cut down the unnecessary personnel and tried to implement performance program to improve work efficiency in the second quarter of 2019.

**Operating loss.** As a result of the above, our operating loss totaled \$2.1 million for the three months ended June 30, 2019, as compared to \$3.3 million for the same period in 2018, representing a decrease of \$1.2 million, or 37%.

**Finance costs, net.** Finance costs consist primarily of interest income and interest on bank loans, net of capitalized interest. Finance cost increased to \$0.4 million for the three months ended June 30, 2019, as compared to \$0.1 million for the three months ended June 30, 2019, an increase of \$0.2 million, or 166%. The increase in finance costs was mainly attributable to an increase of \$0.2 million of interest on other borrowings. In the first quarter 2019, we borrowed \$5.8 million from Jilin Province Trust Co. Ltd., bearing annual interest from 11.3% to 11.6%. As a result, our finance costs increased in the three months ended June 30, 2019.

**Income tax.** Income tax was nil for both three months ended June 30, 2019 and 2018.

**Net loss.** As a result of the foregoing, we had a net loss of \$235 million for the three months ended June 30, 2019, compared to net loss of \$3.4 million for the same period in 2018.

### **Comparison of Six Months Ended June 30, 2018 and 2019**

**Net revenues.** Net revenues were \$9.44 million for the six months ended June 30, 2019, as compared to \$9.36 million for the same period in 2018, representing an increase of \$0.08 million, or 1%.

The following table sets forth the breakdown of our net revenues by end-product applications derived from high-power lithium batteries.

Net revenues from sales of batteries for electric vehicles were \$1.5 million for the six months ended June 30, 2019 as compared to \$1.8 million in the same period of 2018, representing a decrease of \$0.3 million, or 15.3%. Our revenues have been adversely impacted by the reduction of government subsidy for new energy vehicles. Pursuant to the “Notice on Further Completing the Policy of Financial Subsidy for the Promotion and Application of New Energy Vehicles” (Notice 2019), jointly released by the Ministry of Finance, the Ministry of Industry and Information Technology, the Ministry of Science and Technology and the National Development and Reform Commission of the PRC on March 26, 2019, new subsidy standards have been implemented for new energy vehicles sold in China after June 25, 2019. As a result, new energy vehicles will receive different subsidies based on their driving range and technical performance. New energy vehicles providing long driving range and high technical performance will get higher subsidies. We believe the above policies will in the long term encourage the production of new energy vehicles, optimize the structure of the new energy vehicles industry, enhance technical standards of the industry and strengthen its core competitiveness, and ultimately foster strategic development of the new energy vehicles. However, in the short term many electric vehicle manufacturers are inevitably adversely impacted by the decreasing subsidy, and the price of EV batteries in Chinese market decreased sharply as a result. Given the adverse market environment, we focused our resources on the existing cylindrical batteries for UPS market and temporarily reduced the investment on R&D of new products for electric vehicle market and cut down the EV batteries selling before the market stabilizes.

Net revenues from sales of batteries for light electric vehicles was nil for the six months ended June 30, 2019, compared to \$0.02 million in the same period of 2018, representing a decrease of \$0.02 million, or 100%.

Net revenues from sales of batteries for uninterruptable power supplies was \$7.9 million in the six months ended June 30, 2019, as compared with \$7.5 million in the same period in 2018, representing an increase of \$0.4 million, or 5%. As we focused more on this market since 2018, sale of batteries for uninterruptable power supplies remain stable.

**Cost of revenues.** Cost of revenues decreased to \$9.9 million for the six months ended June 30, 2019, as compared to \$10.8 million for the same period in 2018, decrease of \$0.9 million, or 8%. Included in cost of revenues were write down of obsolete inventories of \$0.6 million for six months ended June 30, 2019, while it was \$1,199 for the same period in 2018. We write down inventory value whenever there is an indication that it is impaired. However, further write-down may be necessary if market conditions continue to deteriorate.

**Gross loss.** Gross loss for the six months ended June 30, 2019 was \$0.4 million, or 4.8% of net revenues as compared to gross loss of \$1.4 million, or 14.9% of net revenues, for the same period in 2018, a decrease of \$0.9 million. Our new Dalian facilities commenced manufacturing activities in July 2015. The improvement in gross loss is a result of our continued effect to improve efficiency since we moved our manufacturing facilities to Dalian in 2015. Inefficiency was inevitably caused by the operation of the newly installed machinery and newly hired production staff. In particular, we need to maintain a high level of skilled production staff, in anticipation of the increased demand for our products following the release of the government subsidy policy of new energy vehicles in 2019. In 2019, the qualified rate of our product has improved due to cost control and enhancement works on production line. As a result, our gross loss ratio improved in the six months ended June 30, 2019.

**Research and development expenses.** Research and development expenses decreased to approximately \$0.9 million for the six months ended June 30, 2019, as compared to approximately \$1.4 million for the same period in 2018, a decrease of \$0.4 million, or 31%. We incurred more R&D expenses in 2018 on testing new materials with an aim to diversify our raw material supply sources and reduce our exposure to possible price fluctuations and cut the cost. Meanwhile, we attempted to research and develop higher energy and higher quality lithium batteries to cater the market demand.

**Sales and marketing expenses.** Sales and marketing expenses remain stable at \$0.6 million for the six months ended June 30, 2019 and 2018. As a percentage of revenues, sales and marketing expenses were 6.6% and 6.6% for the six months ended June 30, 2019 and 2018, respectively.

**General and administrative expenses.** General and administrative expenses increased by \$0.3 million or 11% to \$2.6 million for the six months ended June 30, 2019 compared to \$2.3 million for the same period in 2018. The increase was mainly due to \$0.3 million loss from disposal of machines in the six months ended June 30, 2019.

**Operating loss.** As a result of the above, our operating loss decreased to \$4.6 million for the six months ended June 30, 2019, as compared to approximately \$5.7 million for the six months ended June 30, 2018.

**Finance costs, net.** Finance costs consist primarily of interest income and interest on bank loans, net of capitalized interest. Finance cost increased to \$0.6 million for the six months ended June 30, 2019, as compared to \$0.3 million for the six months ended June 30, 2019, an increase of \$0.3 million, or 112%. The increase in finance costs was mainly caused by an increase of \$0.2 million of interest on other borrowings. In the first quarter 2019, we borrowed RMB16.4 million (\$2.4 million), RMB15.4 million (\$2.2 million), RMB6.6 million (\$1.0 million) and RMB1.2 million (\$0.2 million) from Jilin Province Trust Co. Ltd., bearing annual interest from 11.3% to 11.6%. As a result, our finance costs increased in the six months ended June 30, 2019.

**Income tax.** Income tax was nil for the six months ended June 30, 2019 and 2018.

**Net loss.** As a result of the foregoing, we had a net loss of \$5.1 million for the six months ended June 30, 2019, compared to net loss of \$6.0 million for the same period in 2018.

### **Liquidity and Capital Resources**

We have financed our liquidity requirements from short-term bank loans, other short-term loans and bills payable under bank credit agreements, advances from our related and unrelated parties, investors and issuance of capital stock.

We incurred a net loss of \$2.3 million for the three months ended June 30, 2019. As of June 30, 2019, we had cash and cash equivalents of \$0.3 million. Our total current assets were \$46.8 million and our total current liabilities were \$88.7 million, resulting in a net working capital deficiency of \$41.9 million. These factors raise substantial doubts about our ability to continue as a going concern.

As disclosed under Item 2 of PART I, “BUSINESS—Overview”, we have obtained banking facilities from various local banks in China. As of June 30, 2019, we had unutilized committed banking facilities of \$19.3 million.

We are currently expanding our product lines and manufacturing capacity in our Dalian plant, which require more funding to finance the expansion. We may also require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may decide to pursue. We plan to renew these loans upon maturity, if required, and plan to raise additional funds through bank borrowings and equity financing in the future to meet our daily cash demands, if required. However, there can be no assurance that we will be successful in obtaining this financing. If our existing cash and bank borrowing are insufficient to meet our requirements, we may seek to sell equity securities, debt securities or borrow from lending institutions. We can make no assurance that financing will be available in the amounts we need or on terms acceptable to us, if at all. The sale of equity securities, including convertible debt securities, would dilute the interests of our current shareholders. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to our shareholders. If we are unable to obtain additional equity or debt financing as required, our business operations and prospects may suffer.

In the meanwhile, due to the growing environmental pollution problem, the Chinese government is currently providing vigorous support to the new energy facilities and vehicle. It is expected that we will be able to secure more potential orders from the new energy market, especially from the electric car market. We believe with that the booming future market demand in high power lithium ion products, we can continue as a going concern and return to profitability.

The accompanying condensed consolidated financial statements have been prepared assuming we will continue to operate as a going concern, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The condensed consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty related to our ability to continue as a going concern.

The following table sets forth a summary of our cash flows for the periods indicated:

#### ***Operating Activities***

Net cash used in operating activities was \$4.9 million in the six months ended June 30, 2019, as compared to net cash provided by operating activities of \$4.8 million in the same period in 2018. The net cash used in operating activities was mainly attributable to a net loss (before loss on disposal of property, plant and equipment, and excluding non-cash depreciation and amortization) of \$3.5 million, \$10.5 million on settlement of trade accounts, partially offset by a decrease of \$6.4 million for trade accounts and bills receivable, a decrease of \$2.1 million for prepayments and other receivables and an increase of \$0.6 million for accrued expenses and other payables.

### ***Investing Activities***

Net cash used in investing activities decreased to \$1.4 million for the six months ended June 30, 2019, from \$7.5 million in the same period of 2018. The net cash used in investing activities in the six months ended June 30, 2019 mainly consisted of the purchase of equipment and construction in progress.

### ***Financing Activities***

Net cash provided by financing activities was \$6.1 million in the six months ended June 30, 2019, compared to \$5.7 million during the same period in 2018. The net cash provided by financing activities in the six months ended June 30, 2019 was comprised of borrowings from unrelated parties of \$6.4 million and advances from shareholders of \$4.1 million, partially offset by repayment of bank borrowings of \$3.6 million.

As of June 30, 2019, the principal amounts outstanding under our credit facilities and lines of credit were as follows:

(All amounts in thousands of U.S. dollars)

### ***Capital Expenditures***

We incurred capital expenditures of \$7.5 million and \$1.4 million in the six months ended June 30, 2018 and 2019, respectively. Our capital expenditures were used primarily to expand our manufacturing facilities in Dalian.

We estimate that our total capital expenditures for the year ending December 31, 2019 will reach approximately \$6.0 million. Such funds will be used to expand new automatic manufacturing lines to fulfill our customer demands.

Other than the contractual obligations and commercial commitments set forth above, we did not have any other long-term debt obligations, operating lease obligations, capital commitments, purchase obligations or other long-term liabilities as of June 30, 2019.

**Off-Balance Sheet Transactions**

We have not entered into any transactions, agreements or other contractual arrangements to which an entity unconsolidated with us is a party and under which we have (i) any obligation under a guarantee, (ii) any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity, (iii) any obligation under derivative instruments that are indexed to our shares and classified as shareholders' equity in our consolidated balance sheets, or (iv) any obligation arising out of a variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

**Critical Accounting Policies**

Our condensed consolidated financial information has been prepared in accordance with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect (1) the reported amounts of our assets and liabilities, (2) the disclosure of our contingent assets and liabilities at the end of each fiscal period and (3) the reported amounts of revenues and expenses during each fiscal period. We continually evaluate these estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and reasonable assumptions, which together form our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

For a description of our critical accounting policies and estimates, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations –Critical Accounting Policies" and Note 3 to the consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018. For Revenue Recognition refer to Note 1 to the unaudited consolidated financial statements contained herein.

**Changes in Accounting Standards**

Please refer to note 1 to our condensed consolidated financial statements, "Principal Activities, Basis of Presentation and Organization –Recently Issued Accounting Standards," for a discussion of relevant pronouncements.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Not applicable.

### **ITEM 4. CONTROLS AND PROCEDURES.**

#### **Evaluation of Disclosure Controls and Procedures**

As required by Rule 13a-15 under the Exchange Act, our management has carried out an evaluation, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2019. Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating and implementing possible controls and procedures.

Management conducted its evaluation of disclosure controls and procedures under the supervision of our Chief Executive Officer and our Chief Financial Officer. Based upon, and as of the date of this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were ineffective as of June 30, 2019.

As we disclosed in our Annual Report on Form 10-K filed with the SEC on April 16, 2019, during our assessment of the effectiveness of internal control over financial reporting as of December 31, 2018, management identified the following material weakness in our internal control over financial reporting:

- We did not have appropriate policies and procedures in place to evaluate the proper accounting and disclosures of key documents and agreements.
- We do not have sufficient and skilled accounting personnel with an appropriate level of technical accounting knowledge and experience in the application of accounting principles generally accepted in the United States commensurate with our financial reporting requirements.

In order to cure the foregoing material weakness, we plan to make necessary changes by providing training to our financial team and our other relevant personnel on the U.S. GAAP accounting guidelines applicable to our financial reporting requirements.

We intend to complete the remediation of the material weaknesses discussed above as soon as practicable but we can give no assurance that we will be able to do so. Designing and implementing an effective disclosure controls and procedures is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to devote significant resources to maintain a financial reporting system that adequately satisfies our reporting obligations. The remedial measures that we have taken and intend to take may not fully address the material weakness that we have identified, and material weaknesses in our disclosure controls and procedures may be identified in the future. Should we discover such conditions, we intend to remediate them as soon as practicable. We are committed to taking appropriate steps for remediation, as needed.

#### **Changes in Internal Control over Financial Reporting**

Except for the matters described above, there were no changes in our internal controls over financial reporting during the quarter ended June 30, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II

### OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS.

On July 7, 2016, Shenzhen Huijie Purification System Engineering Co., Ltd (“Shenzhen Huijie”), one of our contractors, filed a lawsuit against CBAK Power in the Peoples’ Court of Zhuanghe City, Dalian (the Court of Zhuanghe”), for the failure to pay pursuant to the terms of the contract and entrusting part of the project to a third party without their prior consent. The plaintiff sought a total amount of \$1,227,964 (RMB 8,430,792), including construction costs of \$0.9 million (RMB6.1million, which we already accrued for at June 30, 2016), interest of \$30,934 (RMB0.2 million) and compensation of \$0.3 million (RMB1.9 million). On September 7, 2016, upon the request of Shenzhen Huijie for property preservation, the Court of Zhuanghe froze CBAK Power’s bank deposits totaling \$1,227,964 (RMB 8,430,792) for a period of one year. Further on September 1, 2017, upon the request of Shenzhen Huijie, the Court of Zhuanghe froze the bank deposits for another one year until August 31, 2018. On June 30, 2017, according to the trial of first instance, the Court of Zhuanghe ruled that CBAK Power should pay the remaining contract amount of RMB6,135,860 (approximately \$0.9 million) claimed by Shenzhen Huijie as well as other expenses incurred including deferred interest, discounted charge on bills payable, litigation fee and property preservation fee totaled \$0.1 million. We have accrued for these amounts as of June 30, 2019. On July 24, 2017, CBAK Power filed an appellate petition to the Intermediate Peoples’ Court of Dalian (“Court of Dalian”) to appeal the adjudication dated on June 30, 2017. On November 17, 2017, the Court of Dalian rescinded the original judgement and remanded the case to the Court of Zhuanghe for retrial. The Court of Zhuanghe did a retrial and requested an appraisal to be performed by a third-party appraisal institution on the construction cost incurred and completed by Shenzhen Huijie on the subject project. On November 8, 2018, the Company received from the Court of Zhuanghe the construction-cost-appraisal report which determined that the construction cost incurred and completed by Shenzhen Huijie for the subject project to be \$1,329,780(RMB9,129,868). On May 20, 2019, the Court of Zhuanghe made a judgment that Shenzhen Huijie should pay back to CBAK Power \$258,435 (RMB 1,774,337) (the amount CBAK Power paid in excess of the construction cost appraised by the appraisal institution) and the interest incurred since April 2, 2019. Shenzhen Huijie filed an appellate petition to the Court of Dalian. As of June 30, 2019, we have already paid RMB 10,962,140 (approximately \$1,593,728) and accrued \$0.9 million (RMB 6.1 million) for the construction cost incurred and completed by Shenzhen Huijie.

In late February 2018, we received a notice from Court of Zhuanghe that Shenzhen Huijie filed another lawsuit against us for the breach of contract pursuant to the terms of a fire-control contract. The plaintiff sought a total amount of RMB244,942 (\$35,676), including construction costs of RMB238,735(\$34,772) and interest of RMB6,207 (\$904). We have accrued for these amounts as of June 30, 2019. On October 16, 2018, the Court of Zhuanghe determined that CBAK Power should pay RMB 77,042 (\$11,221) to Shenzhen Huijie after deducting the uncompleted cost, as well as other expenses incurred including deferred interest and litigation fee. On January 29, 2019, the Court of Dalian dismissed the appeal by Shenzhen Huijie and affirmed the original judgement.

In May 2017, we filed a lawsuit in the Court of Zhuanghe against Pingxiang Anyuan Tourism Bus Manufacturing Co., Ltd. (“Anyuan Bus”), one of our customers, for failure to pay pursuant to the terms of the sales contract. We sought a total amount of RMB18,279,858 (\$2,662,490), including goods amount of RMB17,428,000 (\$2,538,416) and interest of RMB851,858 (\$124,074). On December 19, 2017, the Court of Zhuanghe determined that Anyuan Bus should pay the goods amount of RMB17,428,000(\$2,538,416) and the interest until the goods amount was paid off, and a litigation fee of RMB131,480 (\$19,150). Anyuan Bus did not appeal and as a result, the judgment is currently in the enforcement phase. On June 29, 2018, the Company filed a petition with the Court of Zhuanghe for enforcement of the judgement against all of Anyuan Bus’ shareholders, including Jiangxi Zhixin Automobile Co., Ltd, Anyuan Bus Manufacturing Co., Ltd, Anyuan Coal Group Co., Ltd, Qian Ronghua, Qian Bo and Li Junfu. On October 22, 2018, the Court of Zhuanghe issued a judgment supporting the Company’s petition that all of Anyuan Bus’ shareholders should be liable to pay the Company the debt as confirmed by the judgment. On November 9, 2018, all of shareholders appealed against the judgment after receiving the notice from the court. On March 29, 2019, we received judgment from the Court of Zhuanghe that all these six shareholders cannot be added as judgment debtors. On April 11, 2019, we have filed an appellate petition to Court of Dalian challenging the judgment from the Court of Zhuanghe.

As of June 30, 2019, the Company had made a full provision against the receivable from Anyuan Bus of RMB17,428,000 (\$2,538,416).
