1. Principal Activities, Basis of Presentation and Organization

Principal Activities

CBAK Energy Technology, Inc. (formerly known as China BAK Battery, Inc.) (“CBAK” or the “Company”) is a corporation formed in the State of Nevada on October 4, 1999 as Medina Copy, Inc. The Company changed its name to Medina Coffee, Inc. on October 6, 1999 and subsequently changed its name to China BAK Battery, Inc. on February 14, 2005. CBAK and its subsidiaries (hereinafter, collectively referred to as the “Company”) are principally engaged in the manufacture, commercialization and distribution of a wide variety of standard and customized lithium ion (known as “Li-ion” or “Li-ion cell”) high power rechargeable batteries. Prior to the disposal of BAK International Limited (“BAK International”) and its subsidiaries (see below), the batteries produced by the Company were for use in cellular telephones, as well as various other portable electronic applications, including high-power handset telephones, laptop computers, power tools, digital cameras, video camcorders, MP3 players, electric bicycles, hybrid/electric vehicles, and general industrial applications. After the disposal of BAK International and its subsidiaries on June 30, 2014, the Company will focus on the manufacture, commercialization and distribution of high power lithium ion rechargeable batteries for use in cordless power tools, light electric vehicles, hybrid electric vehicles, electric cars, electric busses, uninterruptable power supplies and other high power applications.

The shares of the Company traded in the over-the-counter market through the Over-the-Counter Bulletin Board from 2005 until May 31, 2006, when the Company obtained approval to list its common stock on The NASDAQ Global Market, and trading commenced that same date under the symbol “CBAK”.

On January 10, 2017, the Company filed Articles of Merger with the Secretary of State of Nevada to effectuate a merger between the Company and the Company’s newly formed, wholly owned subsidiary, CBAK Merger Sub, Inc. (the “Merger Sub”). According to the Articles of Merger, effective January 16, 2017, the Merger Sub merged with and into the Company with the Company being the surviving entity (the “Merger”). As permitted by Chapter 92A.180 of Nevada Revised Statutes, the sole purpose of the Merger was to effect a change of the Company’s name.

Effective November 30, 2018, the trading symbol for common stock of the Company was changed from CBAK to CBAT. Effective at the opening of business on June 21, 2019, the Company’s common stock started trading on the Nasdaq Capital Market.

Basis of Presentation and Organization

On November 6, 2004, BAK International, a non-operating holding company that had substantially the same shareholders as Shenzhen BAK Battery Co., Ltd (“Shenzhen BAK”), entered into a share swap transaction with the shareholders of Shenzhen BAK for the purpose of the subsequent reverse acquisition of the Company. The share swap transaction between BAK International and the shareholders of Shenzhen BAK was accounted for as a reverse acquisition of Shenzhen BAK with no adjustment to the historical basis of the assets and liabilities of Shenzhen BAK.

On January 20, 2005, the Company completed a share swap transaction with the shareholders of BAK International. The share swap transaction, also referred to as the “reverse acquisition” of the Company, was consummated under Nevada law pursuant to the terms of a Securities Exchange Agreement entered by and among CBAK, BAK International and the shareholders of BAK International on January 20, 2005. The share swap transaction has been accounted for as a capital-raising transaction of the Company whereby the historical financial statements and operations of Shenzhen BAK are consolidated using historical carrying amounts.

Also on January 20, 2005, immediately prior to consummating the share swap transaction, BAK International executed a private placement of its common stock with unrelated investors whereby it issued an aggregate of 1,720,087 shares of common stock for gross proceeds of \$17,000,000. In conjunction with this financing, Mr. Xiangqian Li, the Chairman and Chief Executive Officer of the Company (“Mr. Li”) until March 1, 2016, agreed to place 435,910 shares of the Company’s common stock owned by him into an escrow account pursuant to an Escrow Agreement dated January 20, 2005 (the “Escrow Agreement”). Pursuant to the Escrow Agreement, 50% of the escrowed shares were to be released to the investors in the private placement if audited net income of the Company for the fiscal year ended September 30, 2005 was not at least \$12,000,000, and the remaining 50% was to be released to investors in the private placement if audited net income of the Company for the fiscal year ended September 30, 2006 was not at least \$27,000,000. If the audited net income of the Company for the fiscal years ended September 30, 2005 and 2006 reached the above-mentioned targets, the 435,910 shares would be released to Mr. Li in the amount of 50% upon reaching the 2005 target and the remaining 50% upon reaching the 2006 target.

Under accounting principles generally accepted in the United States of America (“US GAAP”), escrow agreements such as the one established by Mr. Li generally constitute compensation if, following attainment of a performance threshold, shares are returned to a company officer. The Company determined that without consideration of the compensation charge, the performance thresholds for the year ended September 30, 2005 would be achieved. However, after consideration of a related compensation charge, the Company determined that such thresholds would not have been achieved. The Company also determined that, even without consideration of a compensation charge, the performance thresholds for the year ended September 30, 2006 would not be achieved.

While the 217,955 escrow shares relating to the 2005 performance threshold were previously released to Mr. Li, Mr. Li executed a further undertaking on August 21, 2006 to return those shares to the escrow agent for the distribution to the relevant investors. However, such shares were not returned to the escrow agent, but, pursuant to a Delivery of Make Good Shares, Settlement and Release Agreement between the Company, BAK International and Mr. Li entered into on October 22, 2007 (the “Li Settlement Agreement”), such shares were ultimately delivered to the Company as described below. Because the Company failed to satisfy the performance threshold for the fiscal year ended September 30, 2006, the remaining 217,955 escrow shares relating to the fiscal year 2006 performance threshold were released to the relevant investors. As Mr. Li has not retained any of the shares placed into escrow, and as the investors party to the Escrow Agreement are only shareholders of the Company and do not have and are not expected to have any other relationship to the Company, the Company has not recorded a compensation charge for the years ended September 30, 2005 and 2006.

At the time the escrow shares relating to the 2006 performance threshold were transferred to the investors in fiscal year 2007, the Company should have recognized a credit to donated shares and a debit to additional paid-in capital, both of which are elements of shareholders’ equity. This entry is not material because total ordinary shares issued and outstanding, total shareholders’ equity and total assets do not change; nor is there any impact on income or earnings per share. Therefore, previously filed consolidated financial statements for the fiscal year ended September 30, 2007 will not be restated. This share transfer has been reflected in these financial statements by reclassifying the balances of certain items as of October 1, 2007. The balances of donated shares and additional paid-in capital as of October 1, 2007 were credited and debited by \$7,955,358 respectively, as set out in the consolidated statements of changes in shareholders’ equity.

In November 2007, Mr. Li delivered the 217,955 shares related to the 2005 performance threshold to BAK International pursuant to the Li Settlement Agreement; BAK International in turn delivered the shares to the Company. Such shares (other than those issued to investors pursuant to the 2008 Settlement Agreements, as described below) are now held by the Company. Upon receipt of these shares, the Company and BAK International released all claims and causes of action against Mr. Li regarding the shares, and Mr. Li released all claims and causes of action against the Company and BAK International regarding the shares. Under the terms of the Li Settlement Agreement, the Company commenced negotiations with the investors who participated in the Company’s January 2005 private placement in order to achieve a complete settlement of BAK International’s obligations (and the Company’s obligations to the extent it has any) under the applicable agreements with such investors.

Beginning on March 13, 2008, the Company entered into settlement agreements (the “2008 Settlement Agreements”) with certain investors in the January 2005 private placement. Since the other investors have never submitted any claims regarding this matter, the Company did not reach any settlement with them.

Pursuant to the 2008 Settlement Agreements, the Company and the settling investors have agreed, without any admission of liability, to a settlement and mutual release from all claims relating to the January 2005 private placement, including all claims relating to the escrow shares related to the 2005 performance threshold that had been placed into escrow by Mr. Li, as well as all claims, including claims for liquidated damages relating to registration rights granted in connection with the January 2005 private placement. Under the 2008 Settlement Agreement, the Company has made settlement payments to each of the settling investors of the number of shares of the Company's common stock equivalent to 50% of the number of the escrow shares related to the 2005 performance threshold these investors had claimed; aggregate settlement payments as of June 30, 2015 amounted to 73,749 shares. Share payments to date have been made in reliance upon the exemptions from registration provided by Section 4(2) and/or other applicable provisions of the Securities Act of 1933, as amended. In accordance with the 2008 Settlement Agreements, the Company filed a registration statement covering the resale of such shares which was declared effective by the SEC on June 26, 2008.

Pursuant to the Li Settlement Agreement, the 2008 Settlement Agreements and upon the release of the 217,955 escrow shares relating to the fiscal year 2006 performance threshold to the relevant investors, neither Mr. Li or the Company have any obligations to the investors who participated in the Company's January 2005 private placement relating to the escrow shares.

As of March 31, 2023, the Company had not received any claim from the other investors who have not been covered by the "2008 Settlement Agreements" in the January 2005 private placement.

As the Company has transferred the 217,955 shares related to the 2006 performance threshold to the relevant investors in fiscal year 2007 and the Company also have transferred 73,749 shares relating to the 2005 performance threshold to the investors who had entered the "2008 Settlement Agreements" with us in fiscal year 2008, pursuant to "Li Settlement Agreement" and "2008 Settlement Agreements", neither Mr. Li nor the Company had any remaining obligations to those related investors who participated in the Company's January 2005 private placement relating to the escrow shares.

The Company’s condensed consolidated financial statements have been prepared under US GAAP.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. This basis of accounting differs in certain material respects from that used for the preparation of the books of account of the Company and its subsidiaries, which are prepared in accordance with the accounting principles and the relevant financial regulations applicable to enterprises with limited liability established in the PRC or Hong Kong. The accompanying condensed consolidated financial statements reflect necessary adjustments not recorded in the books of account of the Company’s subsidiaries to present them in conformity with US GAAP.

(“Haisheng”), a 67.33% registered equity interests (representing 69.12% of paid-up capital) owned limited liability company established on October 9, 2021 in the PRC.

On December 8, 2020, the Company entered into a securities purchase agreement with certain institutional investors, pursuant to which the Company issued in a registered direct offering, an aggregate of 9,489,800 shares of common stock of the Company at a per share purchase price of \$5.18, and warrants to purchase an aggregate of 3,795,920 shares of common stock of the Company at an exercise price of \$6.46 per share exercisable for 36 months from the date of issuance, for gross proceeds of approximately \$49.16 million, before deducting fees to the placement agent and other estimated offering expenses of \$3.81 million payable by the Company. In addition, the placement agent for this transaction also received warrants (“Placement Agent Warrants”) for the purchase of up to 379,592 shares of the Company’s common stock at an exercise price of \$6.475 per share exercisable for 36 months after 6 months from the issuance.

On February 8, 2021, the Company entered into another securities purchase agreement with the same investors, pursuant to which the Company issued in a registered direct offering, an aggregate of 8,939,976 shares of common stock of the Company at a per share purchase price of \$7.83. In addition, the Company issued to the investors (i) in a concurrent private placement, the Series A-1 warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 42 months from the date of issuance; (ii) in the registered direct offering, the Series B warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.83 and exercisable for 90 days from the date of issuance; and (iii) in the registered direct offering, the Series A-2 warrants to purchase up to 2,234,992 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 45 months from the date of issuance. The Company received gross proceeds of approximately \$70 million from the registered direct offering and the concurrent private placement, before deducting fees to the placement agent and other estimated offering expenses of \$5.0 million payable by the Company. In addition, the placement agent for this transaction also received warrants (“Placement Agent Warrants”) for the purchase of up to 446,999 shares of the Company’s common stock at an exercise price of \$9.204 per share exercisable for 36 months after 6 months from the issuance.

On May 10, 2021, the Company entered into that Amendment No. 1 to the Series B Warrant (the “Series B Warrant Amendment”) with each of the holders of the Company’s outstanding Series B warrants. Pursuant to the Series B Warrant Amendment, the term of the Series B warrants was extended from May 11, 2021 to August 31, 2021.

As of August 31, 2021, the Company had not received any notices from the investors to exercise Series B warrants. As of the date of this report, Series B warrants, along with Series A-2 warrants, had both expired.

As of March 31, 2023, the Company had \$18.6 million bank loans and approximately \$102.9 million of other current liabilities (excluding warrants liability).

The Company is currently expanding its product lines and manufacturing capacity in its Dalian, Nanjing and Zhejiang plant which requires more funding to finance the expansion. The Company plans to raise additional funds through banks borrowings and equity financing in the future to meet its daily cash demands, if required.

COVID-19

The Company business has been and may continue to be adversely affected by the COVID-19 pandemic or other health epidemics and outbreaks. A wave of infections caused by the Omicron variant emerged in Shanghai in early 2022, and a series of restrictions and quarantines were implemented to contain the spread in Shanghai and other regions. The Company's manufacturing facilities in Dalian, Nanjing and Shaoxing were not producing at full capacity when restrictive measures were in force during 2022, which negatively affected our operational and financial results. China began to modify its zero-COVID policy at the end of 2022, and most of the travel restrictions and quarantine requirements were lifted in December 2022.

The extent of the impact of the COVID-19 pandemic that will continue to have on the Company's business is highly uncertain and difficult to predict and quantify, as the actions that the Company, other businesses and governments may take to contain the spread of COVID-19 continue to evolve. Because of the significant uncertainties surrounding the COVID-19 pandemic, the extent of the future business interruption and the related financial impact cannot be reasonably estimated at this time.

The severity of the impact of the COVID-19 pandemic on the Company's business will continue to depend on a number of factors, including, but not limited to, the duration and severity of the pandemic, the new variants of COVID-19, the efficacy and distribution of COVID-19 vaccines and the extent and severity of the impact on the global supply chain and the Company's customers, service providers and suppliers, all of which are uncertain and cannot be reasonably predicted at this time. As of the date of issuance of the Company's condensed consolidated financial statements, the extent to which the COVID-19 pandemic may in the future materially impact the Company's financial condition, liquidity or results of operations is uncertain. The Company is monitoring and assessing the evolving situation closely and evaluating its potential exposure.

Going Concern

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern. The Company has accumulated deficit from recurring net losses and significant short-term debt obligations maturing in less than one year as of March 31, 2023. These conditions raise substantial doubt about the Company ability to continue as a going concern. The Company's plan for continuing as a going concern included improving its profitability, and obtaining additional debt financing, loans from existing directors and shareholders for additional funding to meet its operating needs. There can be no assurance that the Company will be successful in the plans described above or in attracting equity or alternative financing on acceptable terms, or if at all. These condensed consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Revenue Recognition

The Company recognizes revenues when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods. The Company recognizes revenues following the five step model prescribed under ASU No. 2014-09: (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenues when (or as) we satisfy the performance obligation.

Revenues from product sales are recognized when the customer obtains control of the Company's product, which occurs at a point in time, typically upon delivery to the customer. The Company expenses incremental costs of obtaining a contract as and when incurred if the expected amortization period of the asset that it would have recognized is one year or less or the amount is immaterial.

Revenues from product sales are recorded net of reserves established for applicable discounts and allowances that are offered within contracts with the Company's customers.

Product revenue reserves, which are classified as a reduction in product revenues, are generally characterized in the categories: discounts and returns. These reserves are based on estimates of the amounts earned or to be claimed on the related sales and are classified as reductions of accounts receivable as the amount is payable to the Company's customer.

Recently Adopted Accounting Standards

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments-Credit Losses (Topic 326) (“ASU 2016-13”), which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. ASU 2016-13 replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. ASU 2016-13 is to be adopted on a modified retrospective basis. In March 2023, the FASB issued ASU 2023-02, Topic 326. The ASU eliminates the accounting guidance for troubled debt restructurings by creditors in Subtopic 310-40, and enhances the disclosure requirements for modifications of loans to borrowers experiencing financial difficulty. Additionally, the ASU requires disclosure of gross writeoffs of receivables by year of origination for receivables within the scope of Subtopic 326-20, Financial Instruments - Credit Losses - Measured at Amortized Cost. This ASU is effective for periods beginning after December 15, 2022. The Company applied the new standard beginning January 1, 2023 using the modified retrospective method. This adoption did not have material impact on the Company’s condensed consolidated financial statements.

Recently Issued But Not Yet Adopted Accounting Pronouncements

In January 2017, the FASB issued ASU No. 2017-04, Intangibles – Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment (“ASU 2017-04”). ASU 2017-04 eliminates Step 2 of the two-step goodwill impairment test, under which a goodwill impairment loss was measured by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. ASU 2017-04 requires only a one-step quantitative impairment test, whereby a goodwill impairment loss is measured as the excess of a reporting unit’s carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). Adoption of the ASUs is on a modified retrospective basis. As a smaller reporting company, the standard will be effective for the Company for interim and annual reporting periods beginning after December 15, 2023. The Company is currently evaluating the impact that the adoption of ASU 2017-04 will have on its condensed consolidated financial statement presentation or disclosures.

In October 2021, the FASB issued ASU 2021-08, Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, which requires the recognition and measurement of contract assets and contract liabilities acquired in a business combination in accordance with ASC 606, Revenue from Contracts with Customers. This creates an exception to the general recognition and measurement principles in ASC 805. As a smaller reporting company, ASU 2021-08 will be effective for the Company for interim and annual reporting periods beginning after December 15, 2023, with early adoption permitted. The amendments in this ASU should be applied prospectively to business combinations occurring on or after the effective date of the amendments. The Company does not anticipate that the adoption of this guidance will have a material impact on the condensed consolidated financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company’s condensed consolidated financial statements upon adoption.

During the three months ended March 31, 2022 and 2023, the Company incurred depreciation expense of \$2,271,267 and \$2,539,631, respectively.

The Company has not yet obtained the property ownership certificates of the buildings in its Dalian manufacturing facilities with a carrying amount of \$7,360,242 and \$6,762,165 as of December 31, 2022 and March 31, 2023, respectively. The Company built its facilities on the land for which it had already obtained the related land use right. The Company has submitted applications to the Chinese government for the ownership certificates on the completed buildings located on these lands. However, the application process takes longer than the Company expected and it has not obtained the certificates as of the date of this report. However, since the Company has obtained the land use right in relation to the land, the management believe the Company has legal title to the buildings thereon albeit the lack of ownership certificates.

During the course of the Company's strategic review of its operations, the Company assessed the recoverability of the carrying value of the Company's property, plant and equipment. The impairment charge, if any, represented the excess of carrying amounts of the Company's property, plant and equipment over the estimated discounted cash flows expected to be generated by the Company's production facilities. The Company believes that there was no impairment during the three months ended March 31, 2022 and 2023.

11. Acquisition of subsidiaries

On April 1, 2021, CBAK Power entered into a framework investment agreement with Hangzhou Juzhong Daxin Asset Management Co., Ltd. (“Juzhong Daxin”) for a potential acquisition of Hitrans. Juzhong Daxin is the trustee of 85% of registered equity interests (representing 78.95% of paid-up capital) of Hitrans and has the voting right over the 85% of registered equity interests. Subject to definitive acquisition agreements to be entered into among the parties, including shareholders owning the 85% of equity interests of Hitrans, CBAK Power intends to acquire 85% of equity interests of Hitrans in cash in 2021. CBAK Power has paid \$3.10 million (RMB20,000,000) to Juzhong Daxin as a security deposit in April 2021. Hitrans is an unrelated third party of the Company engaging in researching, manufacturing and trading of raw materials and is one of the major suppliers of the Company in fiscal 2020.

On July 20, 2021, CBAK Power entered into a framework agreement relating to CBAK Power’s investment in Hitrans, pursuant to which CBAK Power acquires 81.56% of registered equity interests (or representing 75.57% of paid-up capital) of Hitrans (the “Acquisition Agreement”). Under the Acquisition Agreement, CBAK Power acquires 60% of registered equity interests (representing 54.39% of paid-up capital) of Hitrans from Zhejiang Meidu Graphene Technology Co., Ltd. (“Meidu Graphene”) valued at RMB118 million (\$18.30 million) and 21.56% of registered equity interests (representing 21.18% of paid-up capital) of Hitrans from Hitrans’s management shareholders valued at approximately RMB40.74 million (\$6.32 million). Two individuals among Hitrans management shareholders, including Hitrans’s CEO, Mr. Haijun Wu (“Mr. Wu”), keep 2.50% registered equity interests (representing 2.46% of paid-up capital) of Hitrans and New Era Group Zhejiang New Energy Materials Co., Ltd. (“New Era”) continue to hold 15% registered equity interests (representing 21.05% of paid-up capital) of Hitrans after the acquisition.

As of the date of the Acquisition Agreement, the 25% registered equity interests (representing 24.56% of paid-up capital) of Hitrans held by Hitrans management shareholders was frozen as a result of a litigation arising from the default by Hitrans management shareholders on debts borrowed from Zhejiang Meidu Pawn Co., Ltd. (“Pawn Co.”) whereby the 25% registered equity interests (representing 24.56% of paid-up capital) of Hitrans was pledged as collateral. Mr. Junnan Ye (“Mr. Ye”), acting as an intermediary, first acquire 22.5% registered equity interests (representing 22.11% of paid-up capital) of Hitrans, free of any encumbrances, from Hitrans management shareholders. Pursuant to the Acquisition Agreement, within five days of CBAK Power’s obtaining 21.56% registered equity interests (representing 21.18% of paid-up capital) of Hitrans from Mr. Ye, CBAK Power pay approximately RMB40.74 million (\$6.32 million) in cash, which amount shall be used toward the repayment of debts due to Pawn Co. On July 23, 2021, CBAK Power paid RMB40.74 million (approximately \$6.32 million) in cash to Mr. Ye.

In addition, as of the date of the Acquisition Agreement, Meidu Graphene’s 60% registered equity interests (representing 54.39% of paid-up capital) of Hitrans was frozen as a result of a litigation arising from Hitrans’s failure to make payments to New Era in connection with the purchase of land use rights, plants, equipment, pollution discharge permit and other assets (the “Assets”) under certain asset transfer agreements as well as Meidu Graphene’s guarantee for Hitrans’s payment obligations thereunder.

As a part of the transaction, CBAK Power entered into a loan agreement with Hitrans to lend Hitrans approximately RMB131 million (\$20.6 million) (the “Hitrans Loan”) by remitting approximately RMB131 million (\$20.6 million) into the account of Shaoxing Intermediate People’s Court (the “Court”) to remove the freeze on Meidu Graphene’s 60% registered equity interests (representing 54.39% of paid-up capital) of Hitrans. Moreover, Juzhong Daxin will return RMB10 million (\$1.6 million) of the security deposit to CBAK Power before CBAK Power wires approximately RMB131 million (\$20.6 million) to the Court. Juzhong Daxin retained RMB5 million (\$0.78 million) as commission for facilitating the acquisition and RMB5 million (\$0.78 million) recognized as compensation expense to another potential buyer. On July 27, 2021, Juzhong Daxin returned RMB7 million (\$1.1 million) of the security deposit to CBAK Power. The remaining RMB3 million (\$0.5 million) had not yet been repaid by Juzhong Daxin up to the date of this report (Note 16). The Company is still negotiating with Juzhong Daxin, as Juzhong Daxin believes that according to the Security Acquisition Framework Agreement entered into between CBAK Power and Juzhong Daxin, CBAK Power should pay RMB3 million (\$0.5 million) as risk premium for facilitating the acquisition. CBAK Power believes it is not reasonable to pay any of the risk premium in accordance with the terms of the agreement and Juzhong Daxin should return RMB3 million (\$0.5 million) to CBAK Power. CBAK Power has taken legal action for the outstanding balance.

CBAK Power shall pay all other fees due to Juzhong Daxin in accordance with the Letter of Intent. According to the Acquisition Agreement, Mr. Ye first acquire 60% registered equity interests (representing 54.39% of paid-up capital) of Hitrans, free of any encumbrances, from Meidu Graphene. Thereafter, CBAK Power assign RMB118 million (\$18.30 million) of the Hitrans Loan to Mr. Junnan Ye as consideration for the acquisition of 60% registered equity interests (representing 54.39% of paid-up capital) of Hitrans from Mr. Ye (the “Assignment”). Hitrans shall repay RMB118 million (\$18.27 million) to Mr. Ye in accordance with a separate loan repayment agreement (the “Loan Repayment Agreement”) entered into among Mr. Ye, Hitrans, CBAK Power and Mr. Wu in July 2021. Under the Loan Repayment Agreement, Hitrans shall repay Mr. Ye at least RMB70 million (\$10.86 million) within two months of obtaining the title to the Assets from New Era and the remaining RMB 48 million (\$7.41 million) by December 31, 2021, with a fixed interest of RMB3.5 million (\$0.54 million) which can be reduced by up to RMB1 million (\$0.15 million) if the loan is settled before its due date. CBAK Power provides guarantee to Mr. Ye on Hitrans’s repayment obligations under the Loan Repayment Agreement. Hitrans shall repay the remaining approximately RMB13 million (\$2.02 million) of the Hitrans Loan to CBAK Power at an interest rate of 6% per annum, maturing in one year from the date of the Assignment. As of December 31, 2021, Hitrans has repaid RMB93 million (\$14.6 million) and interest incurred was RMB0.9 million (\$0.1 million) recorded as finance cost for the year ended December 31, 2021. As of January 29, 2023, Hitrans has repaid all the loan principals of RMB118 million (\$18.3 million) and interests of RMB3.5 million (\$0.54 million) to Mr. Ye (Note 14).

The transfer of 81.56% registered equity interests (representing 75.57% of paid-up capital) of Zhejiang Hitrans to CBAK Power has been registered with the local government and CBAK Power had paid approximately RMB40.74 million (approximately \$6.32 million) in cash to Mr. Ye. In addition, CBAK Power had wired approximately RMB131 million (approximately \$20.6 million) to the Court and Juzhong Daxin returned RMB7 million (\$1.1 million) of the security deposit to CBAK Power. The Acquisition was completed on November 26, 2021.

Upon the closing of the Acquisition, CBAK Power became the largest shareholder of Hitrans holding 81.56% of the Company’s registered equity interests (representing 75.57% of paid-up capital of the Company). As required by applicable Chinese laws, CBAK Power and Management Shareholders are obliged to make capital contributions of RMB11.1 million (\$1.7 million) and RMB0.4 million (\$0.06 million), respectively, for the unpaid portion of Hitrans’s registered capital in accordance with the articles of association of Hitrans.

The Company completed the valuations necessary to assess the fair values of the tangible and intangible assets acquired and liabilities assumed, resulting from which the amount of goodwill was determined and recognized as of the respective acquisition date. The transaction resulted in a purchase price allocation of \$1,606,518 to goodwill, representing the financial, strategic and operational value of the transaction to the Company. Goodwill is attributed to the premium that the Company paid to obtain the value of the business of Hitrans and the synergies expected from the combined operations of Hitrans and the Company, the assembled workforce and their knowledge and experience in provision of raw materials used in manufacturing of lithium batteries. The total amount of the goodwill acquired is not deductible for tax purposes.

The Company performed Goodwill impairment test at the reporting unit level on an annual basis and between annual tests when an event occurs or circumstances change indicating the asset might be impaired. Goodwill was fully impaired as of December 31, 2022. No impairment loss of Goodwill of the reporting unit of Hitrans was recognized for the three months ended March 31, 2022.

The Company performed goodwill impairment test at the reporting unit level on an annual basis and between annual tests when an event occurs or circumstances change indicating the asset might be impaired. As of December 31, 2022, the Company performed testing on reporting unit of NCM precursor and cathode materials products (“Hitrans Reporting unit”)

The Company first assessed qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. For those reporting units where it is determined that it is more likely than not that their fair values are less than the units’ carrying amounts, the Company will perform the first step of a two-step quantitative goodwill impairment test. After performing the assessment, if the carrying amounts of the reporting units are higher than their fair values, the Company will perform the second step of the two-step quantitative goodwill impairment test.

In 2022 and 2021, the Company performed qualitative assessments for Hitrans reporting unit. Based on the requirements of ASC 350-20-35-3C through ASC 350-20-35-3G, the Company evaluated all relevant factors, weighed all factors in their totality. For the year ended December 31, 2022, as the financial performance of Hitrans reporting unit was below original expectations, fair value of this reporting unit was indicated to be lower than its carrying value. For this reporting unit, where it was determined that it was more likely than not that its fair value was less than the units’ carrying amount after performing the qualitative assessment, as a result, the Company performed the two-step quantitative goodwill impairment test for these two reporting units.

For the two-step goodwill impairment test, the Company estimated the fair value with either income approach or asset approach for specific reporting unit components. With the income approach, the Company estimates the fair value of the reporting units using discounted cash flows. Forecasts of future cash flows are based on the best estimate of future net sales and operating expenses, based primarily on expected expansion, pricing, market share, and general economic conditions. Certain estimates of discounted cash flows involve businesses with limited financial history and developing revenue models. Changes in these forecasts could significantly change the amount of impairment recorded, if any. Asset based approach is used in evaluating the fair value of some specific components which is deemed as the most prudent approach due to the unpredictability of future cash flows.

The result of step one impairment test for the Hitrans reporting unit failed, with its determined fair value lower than the book value. The Company performed step two impairment test, applying the income approach, resulting an impairment loss of goodwill of \$1,556,078 for the year ended December 31, 2022. The impairment loss of goodwill was primarily attributable to the impairment related to Hitrans reporting unit as the financial performance of the reporting unit of Hitrans continued to fall below the Company’s original expectations.

* On August 15, 2006, the SEC declared effective a post-effective amendment that the Company had filed on August 4, 2006, terminating the effectiveness of a resale registration statement on Form SB-2 that had been filed pursuant to a registration rights agreement with certain shareholders to register the resale of shares held by those shareholders. The Company subsequently filed Form S-1 for these shareholders. On December 8, 2006, the Company filed its Annual Report on Form 10-K for the year ended September 30, 2006 (the “2006 Form 10-K”). After the filing of the 2006 Form 10-K, the Company’s previously filed registration statement on Form S-1 was no longer available for resale by the selling shareholders whose shares were included in such Form S-1. Under the registration rights agreement, those selling shareholders became eligible for liquidated damages from the Company relating to the above two events totaling approximately \$1,051,000. As of December 31, 2022 and March 31, 2023, no liquidated damages relating to both events have been paid.

On November 9, 2007, the Company completed a private placement for the gross proceeds to the Company of \$13,650,000 by selling 3,500,000 shares of common stock at the price of \$3.90 per share. Roth Capital Partners, LLC acted as the Company’s exclusive financial advisor and placement agent in connection with the private placement and received a cash fee of \$819,000. The Company may have become liable for liquidated damages to certain shareholders whose shares were included in a resale registration statement on Form S-3 that the Company filed pursuant to a registration rights agreement that the Company entered into with such shareholders in November 2007. Under the registration rights agreement, among other things, if a registration statement filed pursuant thereto was not declared effective by the SEC by the 100th calendar day after the closing of the Company’s private placement on November 9, 2007, or the “Effectiveness Deadline”, then the Company would be liable to pay partial liquidated damages to each such investor of (a) 1.5% of the aggregate purchase price paid by such investor for the shares it purchased on the one month anniversary of the Effectiveness Deadline; (b) an additional 1.5% of the aggregate purchase price paid by such investor every thirtieth day thereafter (pro rated for periods totaling less than thirty days) until the earliest of the effectiveness of the registration statement, the ten-month anniversary of the Effectiveness Deadline and the time that the Company is no longer required to keep such resale registration statement effective because either such shareholders have sold all of their shares or such shareholders may sell their shares pursuant to Rule 144 without volume limitations; and (c) 0.5% of the aggregate purchase price paid by such investor for the shares it purchased in the Company’s November 2007 private placement on each of the following dates: the ten-month anniversary of the Effectiveness Deadline and every thirtieth day thereafter (prorated for periods totaling less than thirty days), until the earlier of the effectiveness of the registration statement and the time that the Company no longer is required to keep such resale registration statement effective because either such shareholders have sold all of their shares or such shareholders may sell their shares pursuant to Rule 144 without volume limitations. Such liquidated damages would bear interest at the rate of 1% per month (prorated for partial months) until paid in full.

On December 21, 2007, pursuant to the registration rights agreement, the Company filed a registration statement on Form S-3, which was declared effective by the SEC on May 7, 2008. As a result, the Company estimated liquidated damages amounting to \$561,174 for the November 2007 registration rights agreement. As of December 31, 2022 and March 31, 2023, the Company had settled the liquidated damages with all the investors and the remaining provision of approximately \$159,000 was included in other payables and accruals.

Non-current portion	<u>\$ 5,577,020</u>	<u>\$ 5,513,425</u>

Government grants that are received in advance are deferred and recognized in the consolidated statements of operations over the period necessary to match them with the costs that they are intended to compensate. Government grants in relation to the achievement of stages of research and development projects are recognized in the consolidated statements of operations when amounts have been received and all attached conditions have been met. Non-refundable grants received without any further obligations or conditions attached are recognized immediately in the consolidated statements of operations.

On October 17, 2014, the Company received a subsidy of RMB46,150,000 pursuant to an agreement with the Management Committee dated July 2, 2013 for costs of land use rights and to be used to construct the new manufacturing site in Dalian. Part of the facilities had been completed and was operated in July 2015 and the Company has initiated amortization on a straight-line basis over the estimated useful lives of the depreciable facilities constructed thereon.

On June 23, 2020, BAK Asia, the Company wholly-owned Hong Kong subsidiary, entered into a framework investment agreement with Jiangsu Gaochun Economic Development Zone Development Group Company (“Gaochun EDZ”), pursuant to which the Company intended to develop certain lithium battery projects that aim to have a production capacity of 8Gwh. Gaochun EDZ agreed to provide various support to facilitate the development and operation of the projects. From 2020 to the report date, the Company received RMB10 million (approximately \$1.6 million) to finance the costs incurred for moving; RMB20 million (approximately \$3.2 million) to finance the costs incurred in construction works; and RMB17.1 million (approximately \$2.7 million) to finance equipment purchases from Gaochun EDZ in Nanjing. The Company recognize the government subsidies as income or offsets them against the related expenditures when there are no present or future obligations for the subsidized projects.

For the year ended December 31, 2021, the Company recognized RMB10 million (\$1.6 million) as other income after moving of the Company facilities to Nanjing. Remaining subsidy of RMB37.1 million (approximately \$5.9 million) was granted to facilities the construction works and equipment in Nanjing. The construction works have been completed in November 2021 and the production line was fully operated in January 2023, the Company has initiated amortization on a straight-line basis over the estimated useful lives of the depreciable facilities constructed thereon.

18. Product Warranty Provisions

The Company maintains a policy of providing after sales support for certain of its new EV and LEV battery products introduced since October 1, 2015 by way of a warranty program. The limited cover covers a period of six to twenty four months for battery cells, a period of twelve to twenty seven months for battery modules for light electric vehicles (LEV) such as electric bicycles, and a period of three years to eight years (or 120,000 or 200,000 km if reached sooner) for battery modules for electric vehicles (EV). The Company accrues an estimate of its exposure to warranty claims based on both current and historical product sales data and warranty costs incurred. The Company assesses the adequacy of its recorded warranty liability at least annually and adjusts the amounts as necessary.

Warranty expense is recorded as a component of sales and marketing expenses. Accrued warranty activity consisted of the following:

	<i>December 31,</i>	<i>March 31,</i>
	<u>2022</u>	<u>2023</u>

United States Tax

CBAK is a Nevada corporation that is subject to U.S. federal tax and state tax. On December 31, 2017 the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act makes broad and complex changes to the U.S. tax code, including, but not limited to, (1) reducing the U.S. federal corporate income tax rate from 35 percent to 21 percent; (2) requiring companies to pay a one-time transition tax on certain unrepatriated earnings of foreign subsidiaries; (3) generally eliminating U.S. federal corporate income taxes on dividends from foreign subsidiaries; (4) providing modification to subpart F provisions and new taxes on certain foreign earnings such as Global Intangible Low-Taxed Income (GILTI). Except for the one-time transition tax, most of these provisions go into effect starting January 1, 2018.

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act (the "Tax Act"), which significantly changed U.S. tax law and included a provision to tax global intangible low-taxed income (GILTI) of foreign subsidiaries. The Company recognizes taxes due under the GILTI provision as a current period expense. As of December 31, 2022 and March 31, 2023, the Company does not have any aggregated positive tested income; and as such, does not have additional provision amount recorded for GILTI tax.

No provision for income taxes in the United States has been made as CBAK had no taxable income for the three months ended March 31, 2022 and 2023.

Hong Kong Tax

BAK Asia and BAK Investment are subject to Hong Kong profits tax rate of 16.5% and did not have any assessable profits arising in or derived from Hong Kong For the three months ended March 31, 2022 and 2023 and accordingly no provision for Hong Kong profits tax was made in these periods.

PRC Tax

The CIT Law in China applies an income tax rate of 25% to all enterprises but grants preferential tax treatment to High-New Technology Enterprises. CBAK Power was regarded as a "High-new technology enterprise" pursuant to a certificate jointly issued by the relevant Dalian Government authorities. The certificate was valid for three years commencing from year 2021. Under the preferential tax treatment, CBAK Power was entitled to enjoy a tax rate of 15% for the years from 2021 to 2024 provided that the qualifying conditions as a High-new technology enterprise were met. Hitrans was regarded as a "High-new technology enterprise" pursuant to a certificate jointly issued by the relevant Zhejiang Government authorities. The certificate was valid for three years commencing from year 2021. Under the preferential tax treatment, Hitrans was entitled to enjoy a tax rate of 15% for the years from 2021 to 2024 provided that the qualifying conditions as a High-new technology enterprise were met.

A reconciliation of the provision for income taxes determined at the statutory income tax rate to the Company's income taxes is as follows:

Deferred tax liabilities, non-current		
Long-lived assets arising from acquisitions	<u>\$ 256,380</u>	<u>\$ 153,519</u>

As of December 31, 2022 and March 31, 2023, the Company's U.S. entity had net operating loss carry forwards of \$103,580,741 of which \$102,293 available to reduce future taxable income which will expire in various years through 2035 and \$103,478,448 available to offset capital gains recognized in the succeeding 5 tax years. As of December 31, 2022 and March 31, 2023, the Company's PRC subsidiaries had net operating loss carry forwards of \$52,187,090 and \$53,976,415, respectively, which will expire in various years through 2023 to 2031. Management believes it is more likely than not that the Company will not realize these potential tax benefits as these operations will not generate any operating profits in the foreseeable future. As a result, a valuation allowance of \$37,122,551 and \$36,287,803 as of December 31, 2022 and March 31, 2023, respectively, were provided against subsidiaries which were not estimated to generate operating profits to utilize the potential tax benefits.

According to the PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of taxes is due to computational errors made by the taxpayer or its withholding agent. The statute of limitations extends to five years under special circumstances, which are not clearly defined. In the case of a related party transaction, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion.

The impact of an uncertain income tax positions on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

20. Statutory reserves

As stipulated by the relevant laws and regulations in the PRC, company established in the PRC (the "PRC subsidiary") is required to maintain a statutory reserve made out of profit for the year based on the PRC subsidiary' statutory financial statements which are prepared in accordance with the accounting principles generally accepted in the PRC. The amount and allocation basis are decided by the director of the PRC subsidiary annually and is not to be less than 10% of the profit for the year of the PRC subsidiary. The aggregate amount allocated to the reserves will be limited to 50% of registered capital for certain subsidiaries. Statutory reserve can be used for expanding the capital base of the PRC subsidiary by means of capitalization issue.

In addition, as a result of the relevant PRC laws and regulations which impose restriction on distribution or transfer of assets out of the PRC statutory reserve, \$1,230,511 representing the PRC statutory reserve of the subsidiary as of December 31, 2022 and March 31, 2023, are also considered under restriction for distribution.

21. Fair Value of Financial Instruments

ASC Topic 820, Fair Value Measurement and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy, which requires classification based on observable and unobservable inputs when measuring fair value. Certain current assets and current liabilities are financial instruments. Management believes their carrying amounts are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and, if applicable, their current interest rates are equivalent to interest rates currently available. The three levels of valuation hierarchy are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full term of the financial instruments.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Valuation of debt products depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, and other relevant terms of the debt. Other factors that may be considered include the borrower's ability to adequately service its debt, the fair market value of the borrower in relation to the face amount of its outstanding debt and the quality of collateral securing the Company's debt investments. The fair value of these debt products classified as Level 2 is established by reference to the prices quoted by respective fund administrators.

The fair value of warrants was determined using the Binomial Model, with level 3 inputs (Note 24).

The fair value of share options was determined using the Binomial Model, with level 3 inputs (Note 22).

The carrying amounts of financial assets and liabilities, such as cash and cash equivalents, pledged deposits, trade accounts and bills receivable, other receivables, balances with former subsidiaries, notes payable, other short-term loans, short-term and long-term bank loans and other payables approximate their fair values because of the short maturity of these instruments or the rate of interest of these instruments approximate the market rate of interest.

22. Employee Benefit Plan

Full time employees of the Company in the PRC participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are provided to the employees. The Company accrues for these benefits based on certain percentages of the employees' salaries, up to a maximum amount specified by the local government. The total employee benefits expensed as incurred were \$569,536 (RMB3,615,587) and \$617,793 (RMB4,227,123) for the three months ended March 31, 2022 and 2023, respectively.

23. Share-based Compensation

Restricted Shares and Restricted Share Units

Restricted shares granted on June 30, 2015

On June 12, 2015, the Board of Director approved the CBAK Energy Technology, Inc. 2015 Equity Incentive Plan (the “2015 Plan”) for Employees, Directors and Consultants of the Company and its Affiliates. The maximum aggregate number of Shares that may be issued under the Plan is ten million (10,000,000) Shares.

On June 30, 2015, pursuant to the 2015 Plan, the Compensation Committee of the Company’s Board of Directors granted an aggregate of 690,000 restricted shares of the Company’s common stock, par value \$0.001, to certain employees, officers and directors of the Company with a fair value of \$3.24 per share on June 30, 2015. In accordance with the vesting schedule of the grant, the restricted shares will vest in twelve equal quarterly installments on the last day of each fiscal quarter beginning on June 30, 2015 (i.e. last vesting period: quarter ended March 31, 2018). The Company recognizes the share-based compensation expenses on a graded-vesting method.

All the restricted shares granted in respect of the restricted shares granted on June 30, 2015 have been vested on March 31, 2018.

As of March 31, 2023, there was no unrecognized stock-based compensation associated with the above restricted shares and 1,667 vested shares were to be issued.

On April 19, 2016, pursuant to the Company’s 2015 Plan, the Compensation Committee of the Board of Directors of the Company granted an aggregate of 500,000 restricted shares of the Company’s common stock, par value \$0.001 , to certain employees, officers and directors of the Company, of which 220,000 restricted shares were granted to the Company’s executive officers and directors. There are three types of vesting schedules. First, if the number of restricted shares granted is below 3,000, the shares will vest annually in 2 equal installments over a two year period with the first vesting on June 30, 2017. Second, if the number of restricted shares granted is larger than or equal to 3,000 and is below 10,000, the shares will vest annually in 3 equal installments over a three year period with the first vesting on June 30, 2017. Third, if the number of restricted shares granted is above or equal to 10,000, the shares will vest semi-annually in 6 equal installments over a three year period with the first vesting on December 31, 2016. The fair value of these restricted shares was \$2.68 per share on April 19, 2016. The Company recognizes the share-based compensation expenses over the vesting period (or the requisite service period) on a graded-vesting method.

All the restricted shares granted in respect of the restricted shares granted on April 16, 2016 had been vested on June 30, 2019.

As of March 31, 2023, there was no unrecognized stock-based compensation associated with the above restricted shares and 4,167 vested shares were to be issued.

Restricted share units granted on August 23, 2019

On August 23, 2019, pursuant to the Company’s 2015 Plan, the Compensation Committee granted an aggregate of 1,887,000 restricted share units of the Company’s common stock to certain employees, officers and directors of the Company, of which 710,000 restricted share units were granted to the Company’s executive officers and directors. There are two types of vesting schedules, (i) the share units will vest semi-annually in 6 equal installments over a three year period with the first vesting on September 30, 2019; (ii) the share units will vest annual in 3 equal installments over a three year period with the first vesting on March 31, 2021. The fair value of these restricted shares was \$0.9 per share on August 23, 2019. The Company recognizes the share-based compensation expenses over the vesting period (or the requisite service period) on a graded-vesting method.

The Company recorded non-cash share-based compensation expense of \$23,778 and nil for three months ended March 31, 2022 and 2023, in respect of the restricted shares granted on August 23, 2019

All the restricted share units granted in respect of the restricted share units granted on August 23, 2019 had been vested on March 31, 2022. As of March 31, 2023, there was no unrecognized stock-based compensation associated with the above restricted share units.

Restricted share units granted on October 23, 2020

On October 23, 2020, pursuant to the Company's 2015 Plan, the Compensation Committee granted an aggregate of 100,000 restricted share units to an employee of the Company. In accordance with the vesting schedule of the grant, the restricted share units will vest semi-annually in 6 equal installments over a three year period with the first vesting on October 30, 2020. The fair value of these restricted share units was \$3 per share on October 23, 2020. The Company recognizes the share-based compensation expenses over the vesting period (or the requisite service period) on a graded-vesting method.

The Company recorded non-cash share-based compensation expense of \$11,001 and \$4,897 for the three months ended March 31, 2022 and 2023, in respect of the restricted share units granted on October 23, 2020 of which allocated to research and development expenses.

As of March 31, 2023, non-vested restricted share units granted on October 23, 2020 are as follows:

Non-vested share units as of January 1, 2023	16,665
Granted	-

As of March 31, 2023, there was unrecognized stock-based compensation \$1,632 associated with the above restricted share units and no vested shares were to be issued.

Employees Stock Ownership Program on November 29, 2021

On November 29, 2021, pursuant to the Company's 2015 Plan, the Compensation Committee granted options to obtain an aggregate of 2,750,002 share units of the Company's common stock to certain employees, officers and directors of the Company, of which options to obtain 350,000 share units were given to the Company's executive officers and directors with an option exercise price of \$1.96 based on fair market value. The vesting of shares each year is subject to certain financial performance indicators. The shares will be vested semi-annually in 10 equal installments over a five year period with the first vesting on May 30, 2023. The options will expire on the 70-month anniversary of the grant date.

The fair value of the stock options granted to directors of the Company is estimated on the date of the grant using the Binomial Model. The fair value of the options was calculated using the following assumptions: estimated life of six months to five years, volatility of 106.41%, risk free interest rate of 1.26%, and dividend yield of 0%. The fair value of 350,000 stock options to directors of the Company was \$479,599 at the grant date. For the three months ended March 31, 2022 and 2023, the Company recorded nil as stock compensation expenses.

The fair value of the stock options granted to certain employees and officers of the Company is estimated on the date of the grant using the Binomial Model. The fair value of the options was calculated using the following assumptions: estimated life of six months to five years, volatility of 106.41%, risk-free interest rate of 1.26% and dividend yield of 0%. The fair value of 2,400,002 stock options to certain employees and officers of the Company was \$2,805,624 at the grant date. During the three months ended March 31, 2022 and 2023, the Company recorded nil as stock compensation expenses.

For the three months ended March 31, 2022, 2,750,002 unvested options and all the outstanding warrants were anti-dilutive and excluded from shares used in the diluted computation.

For the three months ended March 31, 2023, all the outstanding warrants were anti-dilutive and excluded from shares used in the diluted computation.

25. Warrants

On December 8, 2020, the Company entered in a securities purchase agreement with certain institutional investors, pursuant to which the Company issued in a registered direct offering, an aggregate of 9,489,800 shares of its common stock at a price of \$5.18 per share, for aggregate gross proceeds to the Company of approximately \$49 million, before deducting fees to the placement agent and other estimated offering expenses payable by the Company. As part of the transaction, the institutional investors also received warrants ("Investor Warrants") for the purchase of up to 3,795,920 shares of the Company's common stock at an exercise price of \$6.46 per share exercisable for 36 months from the date of issuance. In addition, the placement agent for this transaction also received warrants ("Placement Agent Warrants") for the purchase of up to 379,592 shares of the Company's common stock at an exercise price of \$6.475 per share exercisable for 36 months after 6 months from the issuance. The Company has performed a thorough reassessment of the terms of its warrants with reference to the provisions of ASC Topic 815-40-15-71, regarding its exposure to changes in currency exchange rates. This reassessment has led to the management's conclusion that the Company's warrants issued to the investors should not be considered indexed to the Company's own stock because the warrants are denominated in U.S. dollar, which is different from the Company's functional currency, Renminbi. Warrants are remeasured at fair value with changes in fair value recorded in earnings in each reporting period.

On February 8, 2021, the Company entered into another securities purchase agreement with the same investors, pursuant to which the Company issued in a registered direct offering, an aggregate of 8,939,976 shares of common stock of the Company at a per share purchase price of \$7.83. In addition, the Company issued to the investors (i) in a concurrent private placement, the Series A-1 warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 42 months from the date of issuance; (ii) in the registered direct offering, the Series B warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.83 and exercisable for 90 days from the date of issuance; and (iii) in the registered direct offering, the Series A-2 warrants to purchase up to 2,234,992 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 45 months from the date of issuance. The Company received gross proceeds of approximately \$70 million from the registered direct offering and the concurrent private placement, before deducting fees to the placement agent and other estimated offering expenses of \$5.0 million payable by the Company. In addition, the placement agent for this transaction also received warrants (“Placement Agent Warrants”) for the purchase of up to 446,999 shares of the Company’s common stock at an exercise price of \$9.204 per share exercisable for 36 months after 6 months from the issuance.

On May 10, 2021, the Company entered into that Amendment No. 1 to the Series B Warrant (the “Series B Warrant Amendment”) with each of the holders of the Company’s outstanding Series B warrants. Pursuant to the Series B Warrant Amendment, the term of the Series B warrants was extended from May 11, 2021 to August 31, 2021.

As of the date of this report, Series B warrant, along with Series A-2 warrants, had both expired.

There was a total of 9,092,499 warrants issued and outstanding as of March 31, 2023.

The fair value of the outstanding warrants was calculated using Binomial Model based on backward induction with the following assumptions:

(ii) Litigation

During its normal course of business, the Company may become involved in various lawsuits and legal proceedings. However, litigation is subject to inherent uncertainties, and an adverse result may arise from time to time will affect its operation. Other than the legal proceedings set forth below, the Company is currently not aware of any such legal proceedings or claims that the Company believe will have an adverse effect on the Company's operation, financial condition or operating results.

On July 7, 2016, Shenzhen Huijie Purification System Engineering Co., Ltd ("Shenzhen Huijie"), one of the Company's contractors, filed a lawsuit against CBAK Power in the Peoples' Court of Zhuanghe City, Dalian, (the "Court of Zhuanghe") for failure to pay pursuant to the terms of the contract and entrusting part of the project of the contract to a third party without their prior consent. The plaintiff sought a total amount of \$1,241,648 (RMB8,430,792), including construction costs of \$0.9 million (RMB6.1 million, which the Company already accrued for at June 30, 2016), interest of \$29,812 (RMB0.2 million) and compensation of \$0.3 million (RMB1.9 million). On September 7, 2016, upon the request of Shenzhen Huijie for property preservation, the Court of Zhuanghe froze CBAK Power's bank deposits totaling \$1,210,799 (RMB8,430,792) for a period of one year. On September 1, 2017, upon the request of Shenzhen Huijie, the Court of Zhuanghe froze the bank deposits for another one year until August 31, 2018. The Court further froze the bank deposits for another one year until August 27, 2019 upon the request of Shenzhen Huijie on August 27, 2018. On August 27, 2019, the Court froze the bank deposits for another year until August 27, 2020, upon the request of Shenzhen Huijie. On June 28, 2020, the Court of Dalian entered the final judgement as described below and the frozen bank deposit was released in July 2020.

On June 30, 2017, according to the trial of first instance, the Court of Zhuanghe ruled that CBAK Power should pay the remaining contract amount of RMB6,135,860 (approximately \$0.9 million) claimed by Shenzhen Huijie as well as other expenses incurred including deferred interest, discounted charge on bills payable, litigation fee and property preservation fee totaled \$0.1 million. The Company has accrued for these amounts as of December 31, 2017. On July 24, 2017, CBAK Power filed an appellate petition to the Intermediate Peoples' Court of Dalian ("Court of Dalian") to appeal the adjudication dated on June 30, 2017. On November 17, 2017, the Court of Dalian rescinded the original judgement and remanded the case to the Court of Zhuanghe for retrial. The Court of Zhuanghe conducted a retrial and requested an appraisal to be performed by a third-party appraisal institution on the construction cost incurred and completed by Shenzhen Huijie on the subject project. On November 8, 2018, the Company received from the Court of Zhuanghe the construction-cost-appraisal report which determined that the construction cost incurred and completed by Shenzhen Huijie for the subject project to be \$1,344,605 (RMB9,129,868). On May 20, 2019, the Court of Zhuanghe entered a judgment that Shenzhen Huijie should pay back to CBAK Power \$261,316 (RMB1,774,337) (the amount CBAK Power paid in excess of the construction cost appraised by the appraisal institution) and the interest incurred since April 2, 2019. Shenzhen Huijie filed an appellate petition to the Court of Dalian. On June 28, 2020, the Court of Dalian entered the final judgment that Shenzhen Huijie should pay back to CBAK Power \$245,530 (RMB1,667,146) (the amount CBAK Power paid in excess of the construction cost appraised by the appraisal institution) and the interest incurred since April 2, 2019, and reimburse the litigation fees totaling \$30,826 (RMB209,312) that CBAK Power has paid. As of December 31, 2022, CBAK Power have not received the final judgement amount totaled \$276,356 (RMB 1,876,458) from Shenzhen Huijie. Shenzhen Huijie filed an appellate petition to High Peoples' Court of Liaoning ("Court of Liaoning") to appeal the adjudication dated on June 28, 2020. In April 2021, the Court of Liaoning rescinded the original judgement and remanded the case to the Court of Dalian for retrial. On December 21, 2021, the Court of Dalian remanded the case to the Court of Zhuanghe for retrial. Upon receiving the notice from the Court of Liaoning, CBAK Power has accrued the construction cost of \$0.9 million (RMB6,135,860) as of March 31, 2023.

In December 2020, CBAK Power received notice from Court of Dalian Economic and Technology Development Zone that Haoneng filed another lawsuit against CBAK Power for failure to pay pursuant to the terms of the purchase contract. Haoneng sought a total amount of \$1,613,984 (RMB10,257,030), including equipment cost of \$1,427,515 (RMB9,072,000) and interest amount of \$186,469 (RMB1,185,030). In August 2021, CBAK Power and Haoneng reached an agreement that the term of the purchase contract will be extended to December 31, 2023 under which CBAK Power and its related parties shall execute the purchase of equipment in an amount not lower than \$2.4 million (RMB15,120,000) from Haoneng, or CBAK Power has to pay 15% of the amount equal to RMB15,120,000 (\$2.4 million) net of the purchased amount to Haoneng. Haoneng withdrew the filed lawsuit after the agreement. As of March 31, 2023, the equipment was not received by CBAK Power, CBAK Power has included the equipment cost of \$2.2 million (RMB15,120,000) under capital commitments.

(b) Credit Risk

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and cash equivalents and pledged deposits. As of December 31, 2022 and March 31, 2023, substantially all of the Company's cash and cash equivalents were held by major financial institutions and online payment platforms located in the PRC, which management believes are of high credit quality. The Company has not experienced any losses on cash and cash equivalents to date. The Company does not require collateral or other securities to support financial instruments that are subject to credit risk.

For the credit risk related to trade accounts receivable, the Company performs ongoing credit evaluations of its customers and, if necessary, maintains reserves for potential credit losses.

28. Segment Information

The Group's chief operating decision maker has been identified as the Chief Executive Officer ("CEO") who reviews financial information of operating segments based on US GAAP amounts when making decisions about allocating resources and assessing performance of the Company.

As a result of the Hitrans acquisition discussed in Note 11, the Group determined that Hitrans met the criteria for separate reportable segment given its financial information is separately reviewed by the Group's CEO. As a result, the Group determined that it operated in two operating segments namely CBAK and Hitrans upon completion of acquisition. CBAK's segment mainly includes the manufacture, commercialization and distribution of a wide variety of standard and customized lithium ion rechargeable batteries for use in a wide array of applications. Hitrans' segment mainly includes the development and manufacturing of NCM precursor and cathode materials.

The Company primarily operates in the PRC and substantially all of the Company's long-lived assets are located in the PRC.

The Company's chief operating decision maker evaluates performance based on each reporting segment's net revenue, cost of revenues, operating expenses, operating income, finance income (expense), other income and net income. Net revenue, cost of revenues, operating expenses, operating income, finance income (expense), other income and net income by segment for the three months ended March 31, 2022 and 2023 were as follows:

Note: The Company does not allocate its assets located and expenses incurred outside China to its reportable segments because these assets and activities are managed at a corporate level.

Net revenues by product:

The Company's products can be categorized into high power lithium batteries and materials used in manufacturing of lithium batteries. For the product sales of high power lithium batteries, the Company manufactured five types of Li-ion rechargeable batteries: aluminum-case cell, battery pack, cylindrical cell, lithium polymer cell and high-power lithium battery cell. The Company's battery products are sold to packing plants operated by third parties primarily for use in mobile phones and other electronic devices. For the product sales of materials used in manufacturing of lithium batteries, the Company, via its subsidiary, Hitrans, manufactured cathode materials and Precursor for use in manufacturing of cathode. Revenue from these products is as follows:

	<i>Three months ended</i>	
	<i>March 31,</i>

Total	<u>\$ 80,196,298</u>	<u>\$ 42,396,701</u>

Substantially all of the Company's long-lived assets are located in the PRC.

29. Subsequent events

The Company has evaluated subsequent events from March 31, 2023 to the date the financial statements were issued and has determined that there are no items to disclose.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following management’s discussion and analysis should be read in conjunction with our financial statements and the notes thereto and the other financial information appearing elsewhere in this report. Our financial statements are prepared in U.S. dollars and in accordance with U.S. GAAP.

Special Note Regarding Forward Looking Statements

Statements contained in this report include “forward-looking statements” within the meaning of such term in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We use words such as “believe,” “expect,” “anticipate,” “project,” “target,” “plan,” “optimistic,” “intend,” “aim,” “will” or similar expressions which are intended to identify forward-looking statements. Such statements include, among others, those concerning market and industry segment growth and demand and acceptance of new and existing products; any projections of sales, earnings, revenue, margins or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements regarding future economic conditions or performance; as well as all assumptions, expectations, predictions, intentions or beliefs about future events. You are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, including those identified in Item 1A, “Risk Factors” described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022, as well as assumptions, which, if they were to ever materialize or prove incorrect, could cause the results of the Company to differ materially from those expressed or implied by such forward-looking statements.

Readers are urged to carefully review and consider the various disclosures made by us in this report and our other filings with the SEC. These reports attempt to advise interested parties of the risks and factors that may affect our business, financial condition and results of operations and prospects. The forward-looking statements made in this report speak only as of the date hereof and we disclaim any obligation, except as required by law, to provide updates, revisions or amendments to any forward-looking statements to reflect changes in our expectations or future events.

Overview

We are a manufacturer of new energy high power lithium batteries that are mainly used in light electric vehicles, electric vehicles, electric tools, energy storage (such as uninterruptible power supply (UPS) applications) and other high-power applications. Our primary product offering consists of new energy high power lithium batteries, but we are also seeking to expand into the production and sale of light electric vehicles. After completing the acquisition of 81.56% of registered equity interests (representing 75.57% of paid-up capital) of Hitrans in November 2021, we entered into the business of developing and manufacturing NCM precursor and cathode materials. Hitrans is a leading developer and manufacturer of ternary precursor and cathode materials in China, whose products have a wide range of applications including electric vehicles, electric tools, high-end digital products and storage, among others.

We acquired most of our operating assets, including customers, employees, patents and technologies from our former subsidiary BAK International (Tianjin) Ltd. (“BAK Tianjin”). We acquired these assets in exchange for a reduction in accounts receivable from our former subsidiaries that were disposed of in June 2014.

As of March 31, 2023, we report financial and operational information in two segments: (i) production of high-power lithium battery cells and (ii) manufacture and sale of materials used in high-power lithium battery cells.

We currently conduct our business through (i) three wholly-owned operating subsidiaries in China that we own through BAK Asia, an investment holding company formed under the laws of Hong Kong on July 9, 2013; (ii) CBAK Nanjing, a wholly-owned subsidiary in China that we own through BAK Investments, an investment holding company formed under the laws of Hong Kong and acquired by us on July 14, 2020; (iii) Nanjing CBAK, a 100% owned subsidiary of CBAK Nanjing; (iv) Nanjing BFD, a 100% owned subsidiary of CBAK Nanjing; and (v) Hitrans, a subsidiary of CBAK Power, which we own 67.33% of its registered equity interests (representing 69.12% of paid-up capital) through CBAK Power. As of March 31, 2023, our equity interests in Hitrans had reduced to 67.33% as a result of Hitrans’s subsequent equity financings and our transfer of some of our equity interests in Hitrans to certain investors.

As disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 filed on April 14, 2023 and other reports filed with the SEC, we started construction of our Nanjing facilities to expand our lithium battery manufacturing capabilities in 2020. The project comprises two phases: Phase I, encompassing an area of approximately 27,173 square meters, was put into operation in the second half of 2021. Since then, we have been steadily increasing Phase I’s production capacity, which currently stands at 2 GWh; and Phase II, whose construction was launched in 2022, is anticipated to complete infrastructure for the initial 60,494 square meters in the third quarter of 2023. We expect to commence Phase I’s operations in the last quarter of 2023. Once fully operational, the Nanjing facilities are projected to provide a total capacity of 20 GWh to support our customers’ growing demand. In addition, we have been expanding our business by developing new products, fostering new partnerships and strategic acquisition of companies that complement and augment our business.

Due to the growing environmental pollution problem, the Chinese government has been providing support to the development of new energy facilities and vehicles for the past several years. It is expected that we will be able to secure more potential orders from the new energy market. We believe that with the booming market demand for high power lithium-iron products, we can continue as a going concern and return to profitability sustainably.

Financial Performance Highlights for the Quarter Ended March 31, 2023

The following are some financial highlights for the quarter ended March 31, 2023:

- **Net revenues:** Net revenues decreased by \$37.8 million, or 47%, to \$42.4 million for the three months ended March 31, 2023, from \$80.2 million for the same period in 2022.
- **Gross profit:** Gross profit was \$2.9 million, representing a decrease of \$2.4 million, for the three months ended March 31, 2023, from gross profit of \$5.3 million for the same period in 2022.
- **Operating loss:** Operating loss was \$2.9 million for the three months ended March 31, 2023, reflecting an increase of \$1.5 million from an operating loss of \$1.3 million for the same period in 2022.
- **Net income (loss):** Net loss was \$2.2 million for the three months ended March 31, 2023, compared to a net income of \$0.7 million for the same period in 2022.
- **Fully diluted income per share:** Fully diluted loss per share was \$0.02 for the three months ended March 31, 2023, as compared to fully diluted income per share of \$0.01 for the same period in 2022.

Financial Statement Presentation

Net revenues. The Company recognizes revenues when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods. The Company recognizes revenues following the five-step model prescribed under ASU No. 2014-09: (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenues when (or as) we satisfy the performance obligation.

Revenues from product sales are recognized when the customer obtains control of our product, which occurs at a point in time, typically upon delivery to the customer. We expense incremental costs of obtaining a contract as and when incurred if the expected amortization period of the asset that it would have recognized is on year or less or the amount is immaterial.

Revenue from product sales is recorded net of reserves established for applicable discounts and allowances that are offered within contracts with our customers.

Product revenue reserves, which are classified as a reduction in product revenues, are generally characterized in the categories: discounts and returns. These reserves are based on estimates of the amounts earned or to be claimed on the related sales and are classified as reductions of accounts receivable as the amount is payable to the Company's customer.

Cost of revenues. Cost of revenues consists primarily of material costs, employee remuneration for staff engaged in production activity, share-based compensation, depreciation and related expenses that are directly attributable to the production of products. Cost of revenues also includes write-downs of inventory to lower of cost and net realizable value.

Research and development expenses. Research and development expenses primarily consist of remuneration for R&D staff, share-based compensation, depreciation and maintenance expenses relating to R&D equipment, and R&D material costs.

Sales and marketing expenses. Sales and marketing expenses consist primarily of remuneration for staff involved in selling and marketing efforts, including staff engaged in the packaging of goods for shipment, warranty expenses, advertising cost, depreciation, share-based compensation and travel and entertainment expenses. We do not pay slotting fees to retail companies for displaying our products, engage in cooperative advertising programs, participate in buy-down programs or similar arrangements.

General and administrative expenses. General and administrative expenses consist primarily of employee remuneration, share-based compensation, professional fees, insurance, benefits, general office expenses, depreciation, liquidated damage charges and bad debt expenses.

Finance costs, net. Finance costs consist primarily of interest income and interest on bank loans, net of capitalized interest.

Income tax expenses. Our subsidiaries in PRC are subject to an income tax rate of 25%, except that Hitrans and CBAK Power were each recognized as a “High and New Technology Enterprise” and enjoyed a preferential tax rate of 15% from 2021 to 2024. Our Hong Kong subsidiaries are subject to profits tax at a rate of 16.5%. However, because we did not have any assessable income derived from or arising in Hong Kong, the entities had not paid any such tax.

Results of Operations

Comparison of Three Months Ended March 31, 2022 and 2023

The following tables set forth key components of our results of operations for the periods indicated.

Net revenues from sales of batteries for electric vehicles were \$1.8 million for the three months ended March 31, 2023 as compared to nil in the same period of 2022, representing an increase of \$1.8 million. This was partly because our batteries now have improved features and higher quality, making them more attractive to electric vehicle manufacturers. Additionally, the downstream market for electric vehicles continued to grow in 2023, leading to an increase in demand for EV battery products. As a result, we were able to secure more orders and increase our sales volume.

Net revenues from sales of batteries for light electric vehicles were \$2.0 million for the three months ended March 31, 2023, as compared to \$88,764 in the same period of 2022, marking an increase of \$1.9 million, or 2,111%. The light electric vehicle market continued to experience strong growth in 2023 due to various factors. First, the upgrading of electric bicycles to comply with new “national standards” in China led to increased demand for our batteries. Second, the COVID-19 pandemic spurred a fast development of the food delivery industry, which in turn drove the growth of the shared electric bicycle market in China. Such growth continues even after the pandemic subsided. Last, there has been an increased popularity of electric scooters, motors, and bicycles in China, Southeast Asia, and European markets as people seek ways to reduce carbon emissions and pollution. With the favorable market conditions, we were able to continue to grow our sales in the first quarter of 2023. We strive to continue to penetrate the market for batteries used in light electric vehicles.

Net revenues from sales of batteries for uninterruptable power supplies were \$25.8 million in the three months ended March 31, 2023, as compared with \$14.9 million in the same period in 2022, representing an increase of \$10.9 million, or 73%. The increase in sales of batteries for uninterruptable supplies can be attributed to a combination of factors including growing demand for renewable energy sources, and our development of reliable and low-cost products. As more businesses and households switch to renewable energy, there has been a growing demand for renewable energy sources and the need for energy storage solutions to support these sources. Additionally, our focus on research and development has allowed us to develop innovative and reliable energy storage products at competitive pricing. As we continue to invest in R&D and improve our product offerings, we expect to remain a leader in the energy storage industry and see continued growth in sales.

Net revenues from sales of materials used in manufacturing of lithium batteries were \$12.8 million for the three months ended March 31, 2023, as compared to \$65.2 million for the same period of 2022. This primarily resulted from a rapid decrease in raw material prices during the first quarter of 2023, which led to significant downward pressure on the pricing of our battery material products.

Cost of revenues. Cost of revenues decreased to \$39.5 million for the three months ended March 31, 2023, as compared to \$74.9 million for the same period in 2022, a decrease of \$35.4 million, or 47%. The decrease in cost of revenues was in line with the decrease of net revenues. The cost of revenues includes write-down of obsolete inventories of \$1.0 million for three months ended March 31, 2023, as compared to \$0.4 million for the same period in 2022. We write down the inventory value whenever there is an indication that it is impaired.

Gross profit. Gross profit for the three months ended March 31, 2023 was \$2.9 million, or 6.9% of net revenues as compared to gross profit of \$5.3 million, or 6.6% of net revenues, for the same period in 2022. Gross profit margin was higher mainly resulted from the cost control performance from our batteries segment.

Research and development expenses. Research and development expenses decreased to approximately \$2.5 million for the three months ended March 31, 2023, as compared to approximately \$3.3 million for the same period in 2022, a decrease of \$0.9 million, or 26%. The decrease resulted from a decrease of materials used in research and development activities of \$0.5 million for the three months ended March 31, 2023. We will continue to invest in research and development for advanced battery products and materials, focusing on high-power lithium battery cells that offer improved performance and lower costs. We incurred \$0.1 million in testing and development cost for the manufacture and sale of materials used in high-power lithium battery cells during the three months ended March 31, 2023 compared to \$0.5 million during the three months ended March 31, 2022.

Sales and marketing expenses. Sales and marketing expenses decreased to approximately \$0.7 million for the three months ended March 31, 2023, as compared to approximately \$0.8 million for the same period in 2022, a decrease of approximately \$0.1 million, or 13%. As a percentage of revenues, sales and marketing expenses were 2% and 1% for the three months ended March 31, 2023 and 2022, respectively. The slight decrease mainly resulted from a \$0.2 million decrease in shipping and declaration expenses corresponding to the decrease of sales offset by \$0.1 million increase of marketing expenses, as compared to the three months ended March 31, 2022. We have participated in more exhibitions in 2023 after the lift of travel restrictions and quarantine requirements.

General and administrative expenses. General and administrative expenses increased to \$2.5 million, or 5.9% of revenues, for the three months ended March 31, 2023, as compared to \$2.2 million, or 2.8% of revenues, for the same period in 2022, representing an increase of \$0.2 million, or 11%. The increase primarily resulted from salaries and social insurance expenses due to a growing number of employees at Nanjing CBAK. We incurred \$1.3 million in salaries and social insurance cost during the three months ended March 31, 2023 compared to \$1.1 million during the three months ended March 31, 2022.

Provision for doubtful accounts. Provision for doubtful accounts was \$0.1 million for the three months ended March 31, 2023, as compared to \$0.3 million for the same period in 2022. We determine the allowance based on the current expected credit loss model. The allowance for credit losses is adjusted each period for changes in expected lifetime credit losses.

Operating loss. As a result of the above, our operating loss totaled \$2.9 million for the three months ended March 31, 2023, as compared to \$1.3 million for the same period in 2022, representing an increase of \$1.5 million, or 116%.

Finance income, net. Finance income, net was \$5,311 for the three months ended March 31, 2023, as compared to finance income of \$5,014 for the same period in 2022.

Other income, net. Other income was \$0.2 million for the three months ended March 31, 2023, as compared to \$0.3 million for the same period in 2022. For the three months ended March 31, 2023, we received government assistances of \$0.1 million and generated \$0.1 million of services income for technical development of lithium battery. For the three months ended March 31, 2022, we received government assistances of \$0.7 million offset by \$0.2 million loss from electric bicycles samples sales and \$0.2 million of non-operating expenses.

Changes in fair value of warrants liability. We issued warrants in the financing we consummated in December 2020 and February 2022. We determined that these warrants should be accounted for as derivative liabilities, as the warrants are dominated in a currency (U.S. dollar) other than our functional currency. The change in fair value of warrants liability is mainly due to the share price decline.

Income tax. Income tax credit was \$0.4 million and \$93,546 for the three months ended March 31, 2023 and 2022, respectively.

Net income (loss). As a result of the foregoing, we had a net loss of \$2.2 million for the three months ended March 31, 2023, compared to net income of \$0.7 million for the same period in 2022.

Liquidity and Capital Resources

We had financed our liquidity requirements from a variety of sources, including short-term bank loans, other short-term loans and bills payable under bank credit agreements, advance from our related and unrelated parties, investors and issuance of capital stock and other equity-linked securities.

We incurred a net loss of \$2.2 million for the three months ended March 31, 2023. As of March 31, 2023, we had cash and cash equivalents of \$43.1 million. Our total current assets were \$130.0 million and our total current liabilities were \$121.6 million as of March 31, 2023, resulting in a net working capital of \$8.4 million.

As of March 31, 2023, we had an accumulated deficit of \$133.3 million. We had an accumulated deficit from recurring net losses and significant short-term debt obligations maturing in less than one year as of March 31, 2023. These factors raise substantial doubts about our ability to continue as a going concern. The report from our independent registered public accounting firm for the year ended December 31, 2022 included an explanatory paragraph in respect of the substantial doubt of our ability to continue as a going concern.

These condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Lending from Financial Institutions

On November 16, 2021, we obtained banking facilities from Shaoxing Branch of Bank of Communications Co., Ltd with a maximum amount of RMB120.1 million (approximately \$17.5 million) with the term from November 18, 2021 to November 18, 2026. We borrowed a series of acceptance bills from China Merchants Bank Dalian Branch totaling RMB102.6 million (approximately \$14.9 million) for various terms through April to September 2023, which was secured by the Company's cash totaling RMB102.6 million (approximately \$14.9 million).

We borrowed a series of acceptance bills from Bank of China Limited totaling RMB20.7 million (approximately \$3.0 million) for various terms through September 2023, which was secured by our cash totaling RMB20.7 million (approximately \$3.0 million).

We borrowed a series of acceptance bills from Jiangsu Gaochun Rural Commercial Bank totaling RMB22.2 million (approximately \$3.2 million) for various terms through April to August 2023, which was secured by our cash totaling RMB22.2 million (approximately \$3.2 million).

As of March 31, 2023, we had unutilized committed banking facilities of \$3.6 million. We plan to renew these loans upon maturity and intend to raise additional funds through bank borrowings in the future to meet our daily cash demands, if required.

Equity and Debt Financings from Investors

We have also obtained funds through private placements, registered direct offerings and other equity and note financings.

On December 8, 2020, we entered into a securities purchase agreement with certain institutional investors, pursuant to which we issued in a registered direct offering, an aggregate of 9,489,800 shares of common stock of the Company at a per share purchase price of \$5.18, and warrants to purchase an aggregate of 3,795,920 shares of common stock of the Company at an exercise price of \$6.46 per share exercisable for 36 months from the date of issuance, for gross proceeds of approximately \$49.16 million, before deducting fees to the placement agent and other offering expenses payable by the Company.

On February 8, 2021, we entered into another securities purchase agreement with the same investors, pursuant to which we issued in a registered direct offering, an aggregate of 8,939,976 shares of common stock of the Company at a per share purchase price of \$7.83. In addition, we issued to the investors (i) in a concurrent private placement, the Series A-1 warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 42 months from the date of issuance; (ii) in the registered direct offering, the Series B warrants to purchase a total of 4,469,988 shares of common stock, at a per share exercise price of \$7.83 and exercisable for 90 days from the date of issuance; and (iii) in the registered direct offering, the Series A-2 warrants to purchase up to 2,234,992 shares of common stock, at a per share exercise price of \$7.67 and exercisable for 45 months from the date of issuance. We received gross proceeds of approximately \$70 million from the registered direct offering and the concurrent private placement, before deducting fees to the placement agent and other offering expenses payable by the Company.

On May 10, 2021, we entered into the Series B Warrant Amendment with each of the holders of the Company's outstanding Series B warrants. Pursuant to the Series B Warrant Amendment, the term of the Series B warrants was extended from May 11, 2021 to August 31, 2021.

As of August 31, 2021, we had not received any notices from the investors to exercise Series B warrants. Series B warrants, along with Series A-2 warrants, had both expired on September 1, 2021.

We currently are expanding our product lines and manufacturing capacity in our Dalian and Nanjing plants, which requires additional funding to finance the expansion. We may also require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may decide to pursue. We plan to renew these loans upon maturity, if required, and plan to raise additional funds through bank borrowings and equity financing in the future to meet our daily cash demands, if required. However, there can be no assurance that we will be successful in obtaining this financing. If our existing cash and bank borrowing are insufficient to meet our requirements, we may seek to sell equity securities, debt securities or borrow from lending institutions. We can make no assurance that financing will be available in the amounts we need or on terms acceptable to us, if at all. The sale of equity securities, including convertible debt securities, would dilute the interests of our current shareholders. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to our shareholders. If we are unable to obtain additional equity or debt financing as required, our business operations and prospects may suffer.

The accompanying condensed consolidated financial statements have been prepared assuming we will continue to operate as a going concern, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The condensed consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty related to our ability to continue as a going concern.

The following table sets forth a summary of our cash flows for the periods indicated:

(All amounts in thousands of U.S. dollars)

	<i>Three Months Ended</i>	
	<i>March 31,</i>	
	<u>2022</u>	<u>2023</u>

Cash and cash equivalents and restricted cash at the end of period	<u>\$ 30,751</u>	<u>\$ 43,137</u>

Operating Activities

Net cash provided by operating activities was \$9.5 million in the three months ended March 31, 2023, as compared with \$5.0 million in the same period in 2022. The net cash provided by operating activities for the three months ended March 31, 2023 was mainly attributable to our increase of trade and bills payable of \$9.9 million, a decrease of trade receivables from a former subsidiary of \$3.7 million offset by an increase of trade and bills receivable of \$0.6 million, an increase in inventories of \$2.0 million and a decrease of accrued expenses and other payables of \$1.8 million.

The net cash provided by operating activities was \$5.0 million for the three months ended March 31, 2022, mainly attributable to our net profit (before non-cash depreciation and amortization, provision for doubtful debts, write-down of inventories, share-based compensation and changes in fair value of warrants liability) of \$1.6 million, an increase of trade and bills payable of \$13.8 million and an increase of accrued expenses and other payables of \$2.6 million offset by an increase of trade accounts and bills receivable of \$0.5 million, an increase in inventories of \$12.1 million, an increase of \$1.7 million of prepayments and other receivables.

Investing Activities

Net cash used in investing activities was \$7.2 million for the three months ended March 31, 2023, as compared to \$2.7 million in the same period of 2022. The net cash used in investing activities comprised the purchases of property, plant and equipment and construction in progress.

Financing Activities

Net cash provided by financing activities was \$3.2 million in the three months ended March 31, 2023, as compared to net cash provided by financing activities of \$1.9 million in the same period in 2022. The net cash provided by financing activities for the three months ended March 31, 2023 was mainly attributable to \$13.2 million advances from bank borrowings offset by repayment of bank borrowings of \$9.5 million and repayment of borrowings from a unrelated party \$0.2 million and \$0.4 million of principal payments on finance leases.

Net cash provided by financing activities was \$1.9 million in the three months ended March 31, 2022. The net cash provided by financing activities for the three months ended March 31, 2022 was mainly attributable to \$5.8 million advances from bank borrowings offset by repayment of borrowings from Mr. Ye Junnan of \$4.0 million.

Total	<u>\$ 64,284</u>	<u>\$ 60,678</u>

Capital Expenditures

We incurred capital expenditures of \$2.7 million and \$7.2 million in the three months ended March 31, 2022 and 2023, respectively. Our capital expenditures were used primarily to construct or upgrade our Dalian, Nanjing and Zhejiang facilities.

We estimate that our total capital expenditures in fiscal year 2023 will reach approximately \$80 million. Such funds will be mainly used to construct new plants with new product lines and battery module packing lines.

Critical Accounting Policies

Our condensed consolidated financial information has been prepared in accordance with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect (1) the reported amounts of our assets and liabilities, (2) the disclosure of our contingent assets and liabilities at the end of each fiscal period and (3) the reported amounts of revenues and expenses during each fiscal period. We continually evaluate these estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and reasonable assumptions, which together form our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

There were no material changes to the critical accounting policies previously disclosed in our audited consolidated financial statements for the year ended December 31, 2022 included in the Annual Report on Form 10-K filed on April 14, 2023.

Changes in Accounting Standards

Please refer to Note 1 to our condensed consolidated financial statements, “Principal Activities, Basis of Presentation and Organization—Recently Adopted Accounting Standards” and “—Recently Issued But Not Yet Adopted Accounting Pronouncements” for a discussion of relevant pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, our management has carried out an evaluation, with the participation and under the supervision of our Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2023. Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating and implementing possible controls and procedures.

Management conducted its evaluation of disclosure controls and procedures under the supervision of our Chief Executive Officer and our Interim Chief Financial Officer. Based upon, and as of the date of this evaluation, our Chief Executive Officer and Interim Chief Financial Officer concluded that our disclosure controls and procedures were ineffective as of March 31, 2023.

As we disclosed in our Annual Report on Form 10-K filed with the SEC on April 14, 2023, during our assessment of the effectiveness of internal control over financial reporting as of December 31, 2022, management identified the following material weakness in our internal control over financial reporting:

- We did not have appropriate policies and procedures in place to evaluate the proper accounting and disclosures of key documents and agreements.
- We do not have sufficient and skilled accounting personnel with an appropriate level of technical accounting knowledge and experience in the application of accounting principles generally accepted in the United States commensurate with our financial reporting requirements.

In order to cure the foregoing material weakness, we have taken or are taking the following remediation measures:

- We are in the process of hiring a permanent chief financial officer with significant U.S. GAAP and SEC reporting experience. Ms. Xiangyu Pei was appointed by the Board of Directors of the Company as the Interim Chief Financial Officer on August 23, 2019.
- We have regularly offered our financial personnel trainings on internal control and risk management. We have regularly provided trainings to our financial personnel on U.S. GAAP accounting guidelines. We plan to continue to provide trainings to our financial team and our other relevant personnel on the U.S. GAAP accounting guidelines applicable to our financial reporting requirements.

We intend to complete the remediation of the material weaknesses discussed above as soon as practicable but we can give no assurance that we will be able to do so. Designing and implementing an effective disclosure controls and procedures is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to devote significant resources to maintain a financial reporting system that adequately satisfies our reporting obligations. The remedial measures that we have taken and intend to take may not fully address the material weakness that we have identified, and material weaknesses in our disclosure controls and procedures may be identified in the future. Should we discover such conditions, we intend to remediate them as soon as practicable. We are committed to taking appropriate steps for remediation, as needed.

Changes in Internal Control over Financial Reporting

Except for the matters described above, there were no changes in our internal controls over financial reporting during the quarter ended March 31, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
